1. EXECUTIVE SUMMARY

THE PROBLEM

The staffing and placement industry is broken for candidates and employers alike.

For candidates: 60% of job seekers use outdated job boards (Indeed, LinkedIn) and never hear back. Placement take-rate is only 8–12% because of friction, mismatching, and dropout between application and hire.

For employers: Hiring costs average $4,000–7,000 per placement. Onboarding takes 30–90 days. Turnover rates average 35–45% in the first year.

For agencies: Traditional staffing agencies charge 15–25% placement fees, creating misaligned incentives. They profit from churn, not retention.

Market reality: 40+ million people actively job-seeking; 12 million open positions in the U.S. The friction is structural, not informational.

OUR SOLUTION

CareerSync operates a dual-revenue staffing model combining hands-on placement services with a SaaS employment verification and candidate engagement platform.

CareerSync Placement (Hands-On): We source, screen, and place candidates into permanent roles at employers. We earn a flat placement fee ($2,500–5,000 per hire). We then earn ongoing "stay fees" ($250–500/month per retained employee) for the first 12 months.

CareerSync Verify (SaaS): Employers and staffing agencies use our platform to:

- Verify employment history and credentials in real-time
- Reduce bad hires and compliance liability
- Track candidate engagement and retention
- Automate background checks and E-Verify

Result: We get paid for placements AND for keeping people employed (retention-aligned incentive structure).

LIVE PRODUCT & STRATEGIC POSITION

Vercel Deployment: https://ops-staff-001-staffing.vercel.app
GitHub Repository: https://github.com/Worldwidebro/ops-staff-001-staffing

Strategic Goal: Match employers with workers and monetize the work lifecycle. OPS-001 supplies workforce to all other ventures (RE-001, CON-001, LT-005, LT-011) and operates as an independent revenue engine.

Portfolio Architecture:

```
VEX (Portal) → WORLDWIDEBRO HOLDINGS
            ↓
      VENTURE PORTFOLIO
            ↓
   OPS-001 (Workforce Supply)
      ↓
  Services:
   • RE-001 (property management staff)
   • CON-001 (construction crews)
   • LT-005 (courier drivers)
   • LT-011 (dispatchers)
```

TRACTION TODAY

- **Live placement portal:** https://ops-staff-001-staffing.vercel.app
- **Candidate pipeline:** 1,200+ active candidates in database
- **Employer relationships:** 45 active employer clients (target hiring: 150–200 placements/year)
- **Placement track record:** 340 placements in the past 18 months, 78% 90-day retention rate

CAPITAL REQUEST

Total: $500,000

- **Debt:** $300,000 SBA 7(a) loan + $100,000 working capital line
- **Grants:** $100,000 DOL WIOA training grant (applied)

Returns: Year 1 EBITDA $87,600 (DSCR 1.98x) → Year 2 EBITDA $289,200 (DSCR 6.52x)

Exit: 2.5–3.5x MOIC via acquisition by major staffing conglomerates (Kforce, Apex, Hudson) within 5 years.

- **SaaS platform:** MVP complete; verification engine live for 8 major employers

---

3. THE MARKET PROBLEM

PROBLEM #1: PLACEMENT FRICTION & LOW CONVERSION

Impact: Only 8–12% of applications convert to hires

Job boards generate volume but not matches. LinkedIn shows 12M open positions but 95% of applications go unanswered. Candidates spend 20+ hours applying before getting one interview.

Cost to candidate: Time sunk, rejection fatigue, wage loss during search (avg. $2K–5K per month)
Cost to employer: Hiring timeline stretched 60–90 days; recruiter fees 15–25% of first-year salary

PROBLEM #2: BAD HIRE & TURNOVER RISK

Impact: 35–45% turnover in Year 1

Employers can't reliably verify background, employment history, or skills. Bad hires cost $15K–30K in lost productivity, recruitment, and onboarding. Compliance risk from negligent hiring is rising (ADA, FCRA liability).

Cost per bad hire: $20–40K in direct and indirect losses

PROBLEM #3: MISALIGNED INCENTIVES IN STAFFING

Impact: Agencies profit from churn, not retention

Traditional staffing agencies earn 15–25% of first-year salary. If someone quits after 3 months, the agency keeps the fee. They have zero incentive to match well or support retention.

Market reality: 40+ million job-seekers; 12+ million open positions; structural mismatching

MARKET SIZE

- **$180 billion** U.S. staffing and recruitment market
- **$45 billion** in placement fees annually (traditional model)
- **40 million** active job-seekers in the U.S.
- **12 million** open positions at any given time
- **$35–40K** average candidate salary (our target market)

---

4. OUR SOLUTION

CAREERSYNC VERIFY: RETENTION-ALIGNED SAAS

Our differentiator is **reverse-aligning incentives:** We profit when placements stick, not when they churn.

How it works:

1. **Placement fee:** $2,500–5,000 per hire (one-time)
2. **Stay fees:** $250–500/month per retained employee (months 1–12)
3. **Verification revenue:** Employers pay $99/month for unlimited background checks and E-Verify

Result: We're financially incentivized to:

- Make good matches (otherwise we lose stay fees)
- Support retention (ongoing revenue stream)
- Reduce bad hires (compliance liability, stay-fee churn)

CAREERSYNC PLACEMENT: HANDS-ON SERVICE

We operate our own placement business as customer acquisition and retention proof-of-concept:

- **Service 1:** Candidate sourcing and screening (direct placements, $2,500–5,000 per hire)
- **Service 2:** Employer staffing solutions (temp-to-perm, volume hiring)
- **Service 3:** Background verification and compliance (powered by CareerSync Verify SaaS)

COMPETITIVE POSITIONING

Existing staffing platforms (Indeed, LinkedIn, ZipRecruiter) are job boards, not placement agencies. They:

- Don't verify candidates
- Don't support retention
- Charge employers per job posting, not per hire
- Have misaligned incentives (job board = hiring friction = repeat customers)

Our positioning is **retention-aligned staffing + compliance verification**, not job board posting.

5. BUSINESS MODEL & PRICING

TWO REVENUE STREAMS

Offering	Price	Target Customer	Recurring?
Placement Fee	$2,500–5,000 per hire	Employers, temp agencies	No
Stay Fees	$250–500/month for 12 months	Same (retention incentive)	Yes (12 months)
CareerSync Verify SaaS	$99/month per employer	Employers, staffing agencies	Yes
Compliance & Background	$50–100 per candidate	Employers	Per hire

UNIT ECONOMICS (YEAR 1 PROJECTION)

Placement revenue: $450K gross

- 150 placements averaging $3,000 placement fee = $450K
- Plus 150 × $375/month average stay fee × 8 months (partial year) = $450K
- Cost to acquire candidate: ~$200 (sourcing, screening) = $30K
- Cost to serve employer: ~$150 per hire = $22.5K
- **Gross margin on placement: 85%**

SaaS revenue: $150K gross

- 25 employer customers × $99/month × 12 months = $29.7K
- 150 placements × $75 background verification = $11.25K
- Plus 50 staffing agency licenses at $199/month × 12 = $119.4K
- Cost to deliver: 15% (infrastructure, support) = $22.5K
- **Gross margin on SaaS: 85%**

Total gross margin: 85% (staffing is high-margin because it's service + SaaS hybrid)

---

6. MARKET OPPORTUNITY

TOTAL ADDRESSABLE MARKET (TAM)

$180 billion U.S. staffing and recruitment market annually

- Placement and recruitment: $85B
- Temporary staffing: $65B
- Payroll services and outsourcing: $30B

SERVICEABLE ADDRESSABLE MARKET (SAM)

$12 billion mid-market and SMB staffing (companies with 50–2,000 employees)

Our focus is on:

- Mid-market companies (100–2,000 employees) with high turnover

- Hospitality, retail, logistics, healthcare, tech roles
- $30–50K salary range (where placement margins are 8–12% of salary, or $2.5–5K)
- Southeast regional market initially (NC, VA, SC, GA)

SERVICEABLE OBTAINABLE MARKET (SOM)

$18 million three-year obtainable market

Realistic capture:

- Year 1: $600K (150 placements × $4K average, partial stay fees)
- Year 2: $2.1M (300 placements, full 12-month stay fees + SaaS)
- Year 3: $5.0M (500+ placements, mature stay-fee base, SaaS expansion to agencies)

This represents **0.15% of SAM**, conservative for a focused regional player with hands-on placement validation.

COMPETITIVE LANDSCAPE

- **10,000+ staffing agencies** in the U.S.
- **Major competitors:** Robert Half, Kforce, Hudson, Apex (all $2B+/year)
- **Online competitors:** Indeed, LinkedIn, ZipRecruiter (job boards, not placement)
- **No direct competitors** in retention-aligned staffing + compliance verification hybrid model

Our differentiation:

1. Retention-aligned incentives (we profit from stay, not churn)
2. Compliance verification built-in (E-Verify, background, ADA compliance)
3. Hands-on placement service (not just job board)
4. SaaS monetization alongside placement fees (multiple revenue streams)

KEY ASSUMPTIONS

1. **Placement volume:** 150 Year 1 → 300 Year 2 → 500 Year 3 (market scaling)
2. **Average placement fee:** $3,000 Year 1 → $3,200 Year 2 (mix shift to higher-salary roles)
3. **Stay fee retention:** 85% of placements pay full 12-month stay fee
4. **Gross margin:** 84–85% (high because staffing is service + SaaS)

5. **Operating expenses:** Scale from $325K to $750K as headcount grows (3→5 FTE)

DEBT REPAYMENT ANALYSIS

Loan Structure:

- Principal: $300,000 (SBA 7(a))
- Term: 5 years (60 months)
- Rate: ~7.5% (SBA standard)
- Monthly payment: ~~$5,900 (~~$44,400/year)
- Working capital line: $100,000 revolver (unused in projections)

Repayment capacity:

- Year 1 EBITDA: $560,000 covers debt service 12.6x (threshold: 1.25x)
- **Risk:** Very low. Staffing placement model generates immediate cash; minimal receivables risk.

11. RISK FACTORS

EXECUTION RISKS

Risk 1: Recruiter Productivity
If recruiters generate <100 placements/year, economics don't work.
Mitigation: Proven track record (340 placements in 18 months); performance-based compensation; backup sourcing through partnerships.

Risk 2: Employer Churn
If employers switch to competitors before 6 months, stay-fee revenue doesn't materialize.
Mitigation: Contract lock-in for SaaS (automatic renewal); customer success program; quarterly business reviews.

MARKET & COMPETITIVE RISKS

Risk 3: Staffing Giants Enter Market
If Robert Half or Kforce launches retention-aligned model, they outcompete us on brand and scale.
Mitigation: First-mover advantage in SaaS verification; locked-in customer relationships; regional focus before national scale.

Risk 4: Candidate Quality
If candidate quality lags, retention drops below 70%, economics break.
Mitigation: Rigorous screening process; skills verification; continuous feedback loop with employers.

FINANCIAL RISKS

Risk 5: DSCR Falls Below 1.25x
If placement volume misses >40%, debt service becomes unsustainable.
Mitigation: Conservative projections; diversified employer base (45 clients); stay-fee base grows by Year 2.
