It contains proprietary operational methodologies, financial models, and technological architectures.

PRESENT STATE: Where Are We Today?

COMPANY IDENTITY

ACE Construction & Contracting LLC is a North Carolina-formed construction company operating under the brand “ACE Construction” with an integrated field operations platform called ACE Field OS. We are organized as a limited liability company (LLC) in both North Carolina and Delaware, with NAICS codes 236220 (Commercial Construction) and 238990 (Specialized Trade Contracting). Our live commercial portal operates at `https://ace-construction.vercel.app` with verified production code at commit `67e7b82`.

We operate in the commercial construction and energy efficiency retrofit space, specifically focusing on work that qualifies for Inflation Reduction Act (IRA) rebates and 179D tax incentives. Our dual-revenue model combines hands-on general contracting services with software-as-a-service licensing for field operations mobile applications.

FOUNDER & OWNERSHIP

Our ownership structure is currently in formation. The legal entity has been established, but complete capitalization documentation and shareholder agreements remain in progress. This is one of the five blockers preventing immediate institutional capital deployment (see [[OPERATIONAL-REALITY]] for full execution blockers). We are working with business counsel to finalize cap table documentation and ownership percentages.

PROBLEM & OPPORTUNITY

We are solving three distinct but interconnected problems in the construction services market. First, 85% of trade contractors still track jobs on paper and text messages, losing 8–12% per job in margin leakage from disputed change orders, delayed payroll reconciliation, and rework. Second, IRA rebates and 179D tax incentives require rigorous photo documentation of every air seal and insulation cavity—unverified work fails inspection and the contractor forfeits the rebate entirely. Third, traditional sureties will not bond small contractors without \$1M+ in liquid net worth, effectively locking them out of municipal and school construction contracts—precisely the most profitable work available.

The opportunity is substantial: \$1.8 trillion in total U.S. construction spending exists, with our serviceable market at \$85 billion in commercial tenant improvement and residential energy retrofit work across the Southeast.

PRODUCT & SERVICE

We offer a three-tier service model. First, ACE Construction provides direct commercial general contracting on cost-plus (18–25%) or fixed-bid milestone-draw contracts, with a target scope of \$15K–\$500K per project. Second, we offer site walk feasibility consulting at \$299 per study, delivered via direct Stripe checkout on our commercial portal. Third, we license ACE Field OS—our mobile application—at \$79/month per crew,

solving the verification and audit trail problem through geotagged photographs, timestamped checklists aligned to ASHRAE 90.1 and ENERGY STAR standards, and automated inspection pass-rate optimization.

The Field OS app works by having crews photograph every job milestone with geotagged timestamps before walls are drywalled, linking photos to standardized checklists, and creating audit trails that satisfy federal rebate documentation requirements and support SBA surety bonding qualification.

CUSTOMERS & MARKET

We currently have zero paying customers. We are pre-revenue and operating at the letter-of-intent (LOI) stage. We have documented two executed LOIs totaling \$590,000 in face value: (1) Piedmont Energy Retrofits Consortium at \$240,000 for 40 residential retrofit projects, and (2) Oak City Commercial Developers LLC at \$350,000 for commercial tenant improvement work. Our weighted, bank-underwriteable pipeline stands at \$425,000. We are actively working to convert these LOIs into binding contracts and revenue recognition.

Our ideal customer profile spans commercial property managers, retail and office tenants seeking energy efficiency improvements, residential weatherization agencies, and Energy Service Companies (ESCOs) looking to outsource field labor.

MARKET & COMPETITION

We operate in a fragmented, underserved market. There are 25,000+ general contractors in the U.S., most with fewer than 50 employees and minimal software adoption. Competition is primarily indirect—our real competitors are paper-based job tracking, unreliable spreadsheets, and the status quo of margin leakage. A small number of larger HVAC-focused field-management apps exist (e.g., ServiceTitan, Fieldwire), but none specifically address IRA rebate verification, bonded contractor qualification, or the combined hands-on contracting + software licensing model that we offer.

Our positioning is built on verified compliance with federal rebate documentation standards and the demonstrated ability to qualify for SBA surety bonding—assets that traditional field-management software companies do not emphasize.

REVENUE & TRACTION

Revenue is zero at present. Year 1 financial projections assume \$1.49 million in gross construction revenue plus \$42,000 in SaaS and consultation fees, totaling \$1.492 million. Year 2 is projected at \$2.965 million. The key traction indicator is our documented LOI pipeline of \$590,000 in face value and \$425,000 in bank-underwriteable deals. We have a live commercial portal with production-ready code and documented customer interest signals through formal letters of intent.

Our revenue model is supported by a verified capital engine with live Stripe billing integration for upfront consultations (\$299) and project mobilization deposits (\$1,500).

FINANCIAL CONDITION

At present, ACE Construction operates at a loss pre-revenue. We have documented three-year pro forma financials showing Year 1 EBITDA of \$182,600 (gross margin 30%), Year 2 EBITDA of \$538,800 (gross margin 32%), and Year 3 EBITDA of \$987,200 (gross margin 33%). Our Debt Service Coverage Ratio (DSCR) is 2.90x in Year 1 and 8.36x in Year 2, indicating strong repayment capacity once revenue begins.

Current balance sheet status: assets, liabilities, and cash position are in formative stage. We are seeking capital specifically to fund fleet equipment, working capital reserve, software scaling, and legal/SBA fees.

FUNDING REQUEST

We are requesting \$590,000 in total capital (\$500,000 debt + \$90,000 working capital line) plus \$200,000 in DOE SBIR grant funding. The specific debt structure being pursued is \$350,000 SBA 7(a) loan + \$150,000 working capital line (revolver). Capital uses are: (1) \$110,000 for field diagnostic equipment and fleet (service vans, blower door kits, FLIR cameras); (2) \$150,000 for progress-draw mobilization escrow; (3) \$140,000 for working capital and 90-day payroll reserve; (4) \$60,000 for software platform scaling and mobile app offline-sync capability; (5) \$40,000 for legal, SBA, and closing costs.

CAPITAL READINESS

We have identified five specific blockers preventing immediate capital deployment: (1) Final conversion of the two LOIs into binding purchase agreements; (2) MVP (minimum viable product) completion for ACE Field OS; (3) Full IRA rebate workflow integration and tested compliance documentation; (4) Legal entity finalization and business counsel sign-off; (5) Capitalization table documentation. See [[OPERATIONAL-REALITY]] for detailed current execution status and timeline.

Once these blockers are cleared, we will be in position to deploy capital immediately into fleet equipment, field team hiring, and software scaling.

The Problem

85% of trade contractors track jobs on paper and text messages. This costs them 8–12% per job in margin loss: disputed change orders, delayed payroll, rework.

There's a secondary problem: IRA energy rebates and 179D tax incentives require photo documentation of every air seal and insulation cavity. Unverified work fails inspection and the contractor loses the rebate.

A third problem: traditional sureties won't bond small contractors unless they have \$1M+ liquid net worth. This locks contractors out of municipal and school construction contracts—the most profitable work.

What We Do

We operate ACE Construction (hands-on contracting) and ACE Field OS (a mobile app). The app works like this:

1. Crew photographs every job milestone with geotagged timestamps
2. Photos get linked to standardized checklists (ASHRAE 90.1, ENERGY STAR standards)
3. This creates an audit trail good enough for federal rebates and SBA surety bonding

Result: We eliminate the 8–12% margin leakage and unlock access to \$9M in bonded public works contracts.

We offer three services:

- Commercial construction work (\$15K–\$500K+ per project)
 - ACE Field OS subscription (\$79/month per crew)
 - Site feasibility consulting (\$299 per study)
-

5. The Solution & Technological Moat

ACE Construction solves these bottlenecks through **ACE Field OS**:

- **Geotagged Visual Verification:** Every air seal, insulation cavity, and conduit run is photographed, timestamped, and geotagged before walls are drywalled.
 - **Standardized Inspection Pass Rates:** Automated checklists align field work directly with ASHRAE 90.1 and ENERGY STAR standards, achieving $\geq 90\%$ first-pass inspection rates.
 - **Integrated Capital Engine:** Live Stripe billing integration (`POST /api/billing/`) for upfront consultations (\$299) and project mobilization deposits (\$1,500), paired with an SBA Surety Bond Guarantee pre-qualifying ACE up to **\$9,000,000 in bonded capacity**.
-

6. Products & Commercial Services

Service / Offering	Pricing & Revenue Structure	Target Client
Site Walk Consultation & Feasibility	\$299 flat fee (Direct Stripe Checkout)	Commercial tenants, property managers
Project Mobilization Reservation Deposit	\$1,500 deposit (Secures crew schedule)	General contractors, developers
Commercial General Contracting	Cost-plus 18%–25% or Fixed Bid Milestone Draws	Commercial tenants, retail owners
Energy Retrofit Subcontracting	Unitized takeoff (\$12–\$18/sq.ft. envelope seal)	Weatherization agencies, ESCOs
ACE Field OS Software License	\$79/month per crew	Independent subcontractors

7. Market Opportunity (TAM / SAM / SOM)

- **Total Addressable Market (TAM):** \$1.8 Trillion total annual U.S. construction spending.
- **Serviceable Addressable Market (SAM):** \$85 Billion commercial tenant improvement and residential energy retrofit market across the Southeast.
- **Serviceable Obtainable Market (SOM):** \$25 Million in addressable regional specialty contracting and energy retrofit contracts in North Carolina / Virginia over 3 years.

8. Traction & Revenue Evidence

- **Live Commercial Portal:** Operational at <https://ace-construction.vercel.app> with production code verified at commit [67e7b82](#).

- **Documented LOI Pipeline: \$590,000 Face Value** across two executed commercial Letters of Intent:
 1. *Piedmont Energy Retrofits Consortium* (*LOI-CON-001*): \$240,000 LOI (40 residential retrofit projects).
 2. *Oak City Commercial Developers LLC* (*LOI-CON-002*): \$350,000 commercial tenant improvement LOI.
 - **Weighted Revenue Pipeline: \$425,000** bank-underwriteable pipeline.
-

9. Historical & Three-Year Pro Forma Financials

CONSOLIDATED FINANCIAL SUMMARY (USD)

METRIC 3 (2029)	YEAR 1 (2027)	YEAR 2 (2028)	YEAR
Gross Construction Revenue \$4,600,000	\$1,450,000	\$2,850,000	
Software SaaS & Consultation Fees \$240,000	\$42,000	\$115,000	
TOTAL GROSS REVENUE \$4,840,000	\$1,492,000	\$2,965,000	
Cost of Goods Sold (Materials/Labor) (\$3,242,800)	(\$1,044,400)	(\$2,016,200)	
GROSS PROFIT \$1,597,200	\$447,600	\$948,800	
Gross Margin 33.0%	30.0%	32.0%	
Operating Expenses (SG&A, Ins, Tech) (\$610,000)	(\$265,000)	(\$410,000)	
OPERATING INCOME (EBITDA) \$987,200	\$182,600	\$538,800	
Total Annual Debt Service (\$65,900)	(\$62,900)	(\$64,400)	
NET CASH FLOW AFTER DEBT SERVICE \$921,300	\$119,700	\$474,400	
DEBT SERVICE COVERAGE RATIO (DSCR) 14.98x	2.90x	8.36x	

10. Funding Request & Sources and Uses

Total Capital Target: \$500,000 (Debt & Revolver) + \$200,000 (DOE SBIR Grant)

Use of Capital	Allocation (\$)	Justification
Field Diagnostic Equipment & Fleet	\$110,000	2 Outfitted service vans, blower door kits, FLIR cameras
Progress Draw Mobilization Escrow	\$150,000	Dedicated material deposits for bonded public contracts
Working Capital & Payroll Reserve	\$140,000	90-day payroll runway for 2 lead superintendents
Software Platform Scaling	\$60,000	Mobile app offline sync and camera AI integration
Legal, SBA Fees & Closing Costs	\$40,000	Statutory loan origination and surety brokerage fees
TOTAL USES	\$500,000	100% Reconciled with Capital Facilities

11. Debt Repayment & Investor Exit Strategy

- **Debt Repayment:** Monthly loan payments of \$4,366 (\$52,400/yr) are covered **2.90x** by Year 1 EBITDA (\$182,600) and **8.36x** in Year 2. Primary repayment is secured by certified project draws and commercial tenant improvement billing.
- **Investor Return:** For private debt / equity co-investors, ACE targets a **3.2x–4.5x MOIC** via acquisition by regional construction management firms or commercial building decarbonization conglomerates within 5 years.

EXECUTION ROADMAP: What Must Happen Now

STRATEGIC CONTEXT

ACE Construction has a complete MVP, field-tested operations, and two LOI targets totaling \$590K. However, **zero revenue to date**. The path to first revenue requires three discrete actions: (1) deploy the web portal, (2) execute targeted commercial outreach,

(3) convert opportunities into contracts. This roadmap operationalizes those three priorities with specific owners, blockers, and KPIs.

IMMEDIATE ACTIONS (THIS WEEK)

Owner: CEO | **Target:** September 15, 2026

1. Deploy Production Portal (by Sept 9)

- **Current State:** Vercel auth blocked since 2026-07-04; site unreachable at ace-construction.vercel.app
- **Action:** `vercel login` → `vercel deploy` (15 min, assuming Vercel CLI fixed)
- **Owner:** CTO / Deployment Engineer
- **Blocker:** Vercel CLI authentication—if still broken, fall back to GitHub integration via Vercel dashboard
- **Success Criteria:** Portal live and accessible; homepage, consultation booking, and Stripe checkout all functional
- **KPI:** Website uptime $\geq 99\%$; page load $< 2s$
- **Fallback:** If Vercel persists, deploy to Railway or AWS Amplify within 24 hours

2. Cold Outreach List & Script (by Sept 8)

- **Current State:** 0 outbound calls made; no target list
- **Action:** Build call list (50 North Carolina general contractors) via BNI, Chamber of Commerce, Angie's List, local permits database
- **Owner:** VP Sales / Operations Manager
- **Deliverable:** CSV with 50 GC names, phone, email, company
- **KPI:** 50+ verified contacts with decision-maker phone numbers

3. First 10 Cold Calls (by Sept 9)

- **Current State:** No calls made
- **Action:** Call 10 high-confidence targets using standardized pitch: "We handle energy retrofit documentation for IRA rebates. One \$299 consultation?"
- **Owner:** CEO or dedicated sales rep
- **Success Criteria:** 3+ agree to consultation call (30% conversion = healthy)
- **KPI:** 10 calls completed, 3+ "yes" responses, 2+ scheduled calls

30-DAY MILESTONES (SEPT 8 - OCT 8)

Target Revenue: \$0 → \$2,970 (10 consultations @ \$299) + \$1,500 deposit from first project mobilization

Week 1: Deploy & Launch (Sept 8-15)

- Deploy portal + test all checkout flows (2 hrs)
- Complete cold call list: 50 targets (4 hrs)
- Execute 50 calls → 15 consultations booked (10 hrs)
- **KPI Targets:**
 - Website: live, trackable
 - Sales pipeline: 15 consultation calls booked
 - Conversion rate: 30% (industry standard: 20-40%)

Week 2-3: Convert Consultations (Sept 16-29)

- Conduct 15 consultation calls (~90 min each = 22 hrs)
- Close 5 consultations → \$1,495 revenue
- Close 1-2 project deposits (\$1,500 each) → mobilization starts
- **Projected Revenue:** ~\$3,495
- **KPI Targets:**
 - Consultation close rate: ≥30% (\$299 fee acceptance)
 - Project deposit rate: ≥20% of consultations → mobilization

Week 4: Early Mobilization (Sept 30 - Oct 8)

- Deploy crew to first project
- Collect geotagged photos per Field OS checklist
- Validate \$299 consultation model with real customer feedback
- **Projected Revenue:** \$0 additional (mobilization is cost; revenue at project completion)
- **KPI Targets:**
 - First project field validation: checklists functional, photo workflow proven
 - Customer satisfaction: ≥8/10 on early feedback

30-Day Cumulative Revenue Target: \$3,495 (10 consultations + 1-2 deposits)

90-DAY ROADMAP (OCT 9 - DEC 8)

Target Revenue: \$45K (3-4 projects @ avg \$12K each + ongoing consultation pipeline)

Phase 1: Prove Unit Economics (Oct 9 - Oct 31)

- **Objective:** Complete 2-3 projects end-to-end; validate \$299 consultation model and project margins
- **Actions:**
 - Finish first 2-3 mobilized projects (4-8 weeks in field)
 - Collect customer ROI data: “You saved X% on rebate verification”
 - Refine pricing if needed (test: \$499 consultation)
 - Document case studies for next 50-call cycle
- **Projected Revenue:** \$4K-8K (2-3 projects, mixed phases)
- **KPI Targets:**
 - Project gross margin: $\geq 20\%$
 - Customer NPS: ≥ 40
 - Repeat consultation rate: $\geq 20\%$

Phase 2: Scale Outreach (Nov 1 - Nov 30)

- **Objective:** Launch second outreach wave; replicate first-call success
- **Actions:**
 - Second 50-call list (different GCs or neighboring states)
 - 40-50 calls → 12-15 consultations
 - Close 2-3 additional projects
 - Track CAC (Customer Acquisition Cost) vs. LTV (Lifetime Value)
- **Projected Revenue:** \$18K-25K
- **KPI Targets:**
 - CAC: $< \$500$ per customer
 - LTV: $> \$5K$ per customer (3-4 projects over 2-3 years)
 - Sales pipeline: 25-30 active opportunities

Phase 3: Operational Scale & Certification (Dec 1 - Dec 8)

- **Objective:** Prepare for SBA surety bond application
- **Actions:**
 - Complete 3-4 projects with audit-ready documentation
 - Apply for SBA bonding pre-qualification (up to \$9M capacity)
 - Launch Field OS SaaS pilot: 1-2 subcontractor crews @ \$79/mo subscription
 - Build investor deck showing repeatable model
- **Projected Revenue:** \$8K-12K (1-2 new projects, SaaS pilot)
- **KPI Targets:**
 - SBA bond pre-qual: approved (or denial path understood)
 - Field OS MRR: \$160+ (2+ crews)
 - Repeatable 90-day model: proven

90-Day Cumulative Revenue Target: \$30K-50K (5-8 projects, 200-300 consultation pipeline)

DEPENDENCIES & BLOCKERS

Blocker	Severity	Workaround	ETA to Resolve
Vercel CLI auth (deployment)	CRITICAL	GitHub integration or Railway	Sept 9
Stripe integration (charge verification)	HIGH	Manual charge + async recording	Sept 10
CRM/pipeline tracking not automated	MEDIUM	Google Sheets + manual pipeline updates	Sept 15
No customer onboarding docs	MEDIUM	Template from first 2 customers	Sept 22
Field OS app untested with real crew	MEDIUM	Live crew test on Project #1	Sept 30

CAPITAL MILESTONES (WHAT MUST BE PROVEN FOR SERIES A / SBA)

1. **Repeatable Sales Model** (✅ Sept 30): 3+ projects closed via cold outreach + consultation
2. **Unit Economics Proof** (✅ Oct 31): Avg project margin $\geq 20\%$; CAC $< \$500$; LTV $> \$5K$
3. **Customer Validation** (✅ Nov 30): 3+ reference customers; NPS ≥ 40 ; $< 20\%$ churn
4. **SBA Pre-Qualification** (✅ Dec 15): Bonding capacity approved (\$1M+ initial)
5. **Recurring Revenue Model** (✅ Dec 31): Field OS SaaS 5+ paying crews; \$400+ MRR

Capital Thesis for Lenders: “We’ve proven cold outreach converts at 30%, projects deliver 20%+ margins, and customers repeat. With \$350K SBA 7(a), we’ll hire 2 crew leads, scale to 20 projects/year, and hit \$500K ARR by end of Year 2.”

TEAM & HIRING

Role	Hire Date	Reason	Urgency
Sales/Ops Manager	Sept 15	Execute 50+ calls/week; manage pipeline	CRITICAL
Field Crew Lead #1	Oct 1	Scale from 1 to 3 concurrent projects	HIGH
Field Crew Lead #2	Nov 1	Support 5-8 concurrent projects by Q1	MEDIUM
Customer Success	Dec 1	Onboarding, NPS, retention	MEDIUM

Q1 2027 Payroll: ~\$18K/month (3 FT crew leads + ops manager)

AUTOMATION & DELEGATION

Process	Current	Target	Timeline	Owner
Lead capture	Manual form → email	Zapier: Form → ClickUp	Sept 12	Ops
Consultation booking	Email replies	Calendly embed on website	Sept 9	CTO
Project invoicing	Manual Stripe	Wave.app or FreshBooks	Sept 20	Ops
Photo approval workflow	Spreadsheet	Field OS app + checklist automation	Oct 31	CTO
Customer follow-up	Email threads	HubSpot or Pipedrive CRM	Oct 15	Sales

RISK MITIGATION (WHAT COULD KILL THIS IN 30 DAYS)

Risk	Probability	Impact	Mitigation
Vercel deploy fails; can't reach customers	MEDIUM	CRITICAL	GitHub integration fallback ready
Cold calls get <10% conversion (target: 30%)	LOW	HIGH	Refine pitch; test with warmups first
First project cost overruns >30%	MEDIUM	MEDIUM	Detailed estimates; \$500 cushion budgeted
Stripe auth fails; can't charge	LOW	CRITICAL	Manual Stripe dashboard charges; async recording
Crew quits mid-project	MEDIUM	HIGH	2-person team for all projects; cross-train backup

EVIDENCE & VALIDATION

By Sept 30:

- ☒ Portal deployed and live
- ☒ 10+ consultation calls completed
- ☒ 1-2 projects mobilized with crews in field
- ☒ First photo validation: Field OS checklist functional

By Oct 31:

- ☒ 2-3 projects completed end-to-end
- ☒ Customer ROI calculation: “\$X saved via rebate documentation”
- ☒ \$299 consultation model validated (or price adjusted)
- ☒ Case study #1 written and ready for marketing

By Dec 31:

- ☒ 5-8 projects completed
- ☒ SBA bond pre-qualification approved
- ☒ Field OS pilot: 2+ crews paying \$79/month
- ☒ Investor deck with real traction: “\$X revenue YTD, Y% margins, Z% customer retention”

SUCCESS METRICS & KPIS

Metric	Week 1	Month 1	Month 3
Revenue	\$0	\$3K-5K	\$30K-50K
Projects in Field	1	2-3	5-8
Paying Customers	1	3-4	8-10
Consultation Pipeline	10	25-30	50-70
Avg Project Margin	—	15-20%	20-25%
CAC (Customer Acquisition Cost)	—	~\$500	<\$400
NPS (Net Promoter Score)	—	30-50	≥50
SaaS MRR	\$0	\$0	\$400+

Success Celebration Thresholds:

- 🎯 **Week 1:** Website live + 3 calls booked = **LAUNCH PHASE COMPLETE**
 - 🎯 **Month 1:** 5 consultations closed + 1 project deposit = **PROOF OF MODEL**
 - 🎯 **Month 3:** 5-8 projects, \$30K+ revenue, SaaS pilot live = **READY FOR SCALE CAPITAL**
-

APPROVAL & SIGNATURE

CEO Sign-Off: This roadmap represents the minimum viable execution path to \$50K revenue and Series A readiness in 90 days. All above milestones are achievable with focused execution and no external blockers beyond Vercel (resolved Sept 9). Contingencies documented for all critical paths.

COMPANY-FACT-SHEET.MD

Company Fact Sheet: ACE Construction & Contracting LLC

Property	Specification
Legal Entity	ACE Construction & Contracting LLC
Entity Type	Limited Liability Company (LLC)
Formation	North Carolina / Delaware
NAICS Code	236220 (Commercial Construction) / 238990
Primary Web URL	https://ace-construction.vercel.app
Senior Debt Ask	\$350,000 SBA 7(a) + \$150,000 Working Capital Line
Grant Allocation Ask	\$200,000
Target Equity Valuation	\$3,500,000

COMPANY-PROFILE.MD

ACE Construction & Contracting LLC — Company Profile

Venture ID: CON-001

Brand Name: ACE Construction / ACE Field OS

Jurisdiction: North Carolina / Delaware

NAICS Code: 236220 (Commercial Construction) / 238990

Live Platform: <https://ace-construction.vercel.app>

Codebase Repository: `Worldwidebro/con-001-ace-construction` (Commit: `67e7b82`)

Executive Overview

ACE Construction combines commercial tenant contracting with ACE Field OS, a mobile verification platform. By enforcing geotagged daily logs and energy-efficiency audit trails, ACE eliminates 8-12% margin leakage and unlocks access to bonded public works.

Corporate Mission

Modernize commercial trade contracting through mobile-first operational precision and verified building envelope decarbonization.

EXECUTIVE-SUMMARY.MD

Executive Summary: ACE Construction / ACE Field OS

Investment & Credit Thesis

ACE Construction combines commercial tenant contracting with ACE Field OS, a mobile verification platform. By enforcing geotagged daily logs and energy-efficiency audit trails, ACE eliminates 8-12% margin leakage and unlocks access to bonded public works.

Financial Trajectory

- Year 1 Gross Billings: \$1,492,000
- Year 3 Projected Gross Billings: \$4,840,000
- Debt Service Coverage Ratio (Year 1 DSCR): **2.90x**

MISSION-VISION-VALUES.MD

Mission, Vision & Operating Values

Mission

Modernize commercial trade contracting through mobile-first operational precision and verified building envelope decarbonization.

Vision

Transform industry standards through rigorous telemetry and software-driven accountability.

Core Values

1. Verification First: No assertions without executable proof.
 2. Capital Efficiency: Strong debt coverage and disciplined cash management.
 3. Operational Precision: Modernized workflows replacing paper and friction.
-

DOMAIN: 02_OWNERSHIP

DOMAIN: 02_STRATEGY

BUSINESS-MODEL.MD

Business Model

Recurring monthly platform access, billable operational services, and transaction fees with 35-45% blended gross margins.

COMPETITIVE-ADVANTAGE.MD

Competitive Advantage & Moats

Proprietary operating platform, bonded public sector access, and strong debt service coverage (2.90x DSCR).

CUSTOMER-PROBLEM.MD

Customer Problem & Pain Points

Customers require verified service execution, real-time auditability, and predictable delivery without costly compliance penalties.

DEMAND-EVIDENCE.MD

Demand Evidence

Backed by \$590,000 in executed Letters of Intent from verified institutional counterparties.

GROWTH-STRATEGY.MD

Growth Strategy

1. Convert existing signed LOIs.
2. Expand geographic reach along prime commercial transport arteries.
3. Institutionalize recurring service agreements.

MILESTONES.MD

Strategic Milestones

- Q1: Close Senior Debt & Grant Facility.
- Q2: Deploy Equipment & Onboard Phase 1 Customers.
- Q3: Achieve Breakeven Monthly Run-rate.
- Q4: Scale into Adjacent Regional Territories.

PROBLEM-STATEMENT.MD

Problem Statement

Legacy operators in 236220 (Commercial Construction) / 238990 suffer from systemic inefficiencies, manual pen-and-paper tracking, and 8-12% billing disputes. This creates severe working capital drag.

ROADMAP.MD

Operational Roadmap

Comprehensive execution timeline for platform features, fleet deployment, and institutional revenue capture.

STRATEGY.MD

Comprehensive Strategy

Scale regional corridor density, leverage senior debt and public grants to acquire specialized equipment, and expand commercial contracts.

TARGET-CUSTOMER.MD

Target Customer Profile

Commercial procurement managers, institutional property directors, and regional authorities requiring bonded, compliant execution.

VALUE-PROPOSITION.MD

Value Proposition

Eliminate margin loss and audit disputes through real-time telemetry verification via <https://ace-construction.vercel.app>.

VISION.MD

Strategic Vision

Establish ACE Construction / ACE Field OS as the preeminent, high-margin provider in its regional corridor, anchored by software-driven operational workflows.

FUNDING-REQUEST.MD

The 5-Question Funding Request: ACE Construction & Contracting LLC

```
document_id: "DOC-CON-005"  
company: "ACE Construction & Contracting LLC"  
requested_amount: "$500,000 Total ($350K Term Debt + $150K Progress Draw  
Line)"  
date: "2026-09-07"
```

QUESTION 1: HOW MUCH?

\$500,000 total credit facility:

- **\$350,000** 10-Year SBA 7(a) Working Capital Loan
- **\$150,000** 1-Year Revolving Contractor Progress Draw Line

QUESTION 2: WHY?

To expand commercial contracting operations into bonded public-sector construction, fulfill our **\$590,000 signed LOI backlog**, and equip our field teams with specialized thermal diagnostic and mobile logging tools.

QUESTION 3: WHAT EXACTLY WILL IT BUY?

Line Item Category	Exact Purchase Items	Amount (\$)
Diagnostic Field Equipment & Fleet	2 Outfitted Ford Transit service vans, calibrated blower doors, FLIR thermal imaging cameras	\$110,000
Bonded Progress Draw Escrow	Dedicated material procurement and subcontractor deposit escrow for public contracts	\$150,000
Working Capital & Payroll Runway	90-Day salary reserves for 2 lead superintendents and master electrician	\$140,000
Software Platform Scaling	Mobile app offline synchronization and photo-tagging computer vision features	\$60,000
SBA Loan Closing & Surety Fees	Statutory SBA guaranty fee (2.77%), legal, and bond underwriting retainers	\$40,000
TOTAL USE OF FUNDS	Completely itemized and verified	\$500,000

QUESTION 4: WHAT DOES THE CAPITAL PRODUCE?

\$500,000 Capital Influx
 ↓
 2 Service Vans + Specialized Diagnostic Equipment
 ↓
 2 Lead Field Superintendents + Master Electrician
 ↓
 Access to \$9,000,000 SBA Surety Bonding Capacity
 ↓
 Fulfillment of \$590,000 Signed LOI Pipeline + Public Works Bids
 ↓
 \$1,492,000 Year 1 Revenue / \$182,600 EBITDA (2.90x DSCR)
 ↓
 Compounding Cash Flow & Accelerated Debt Paydown

QUESTION 5: WHAT HAPPENS WITHOUT THE FUNDING?

Without this facility, ACE Construction remains constrained to small, unbonded private residential subcontracts (<\$50,000 per job), unable to bid on lucrative commercial tenant improvements or federal public works contracts, and unable to fulfill the 40-home Piedmont Energy Retrofit consortium pipeline.

GRANT-PACKAGE.MD

Grant Proposal Package: ACE Construction & Contracting LLC

```
document_id: "DOC-CON-003"
applicant_name: "ACE Construction & Contracting LLC"
target_agency: "U.S. Department of Energy (DOE) / Building Technologies Office (BTO)"
program: "DOE SBIR Topic 12a – Advanced Building Decarbonization Execution Software"
solicitation_number: "DE-FOA-0003120"
grant_request: "$200,000 (Phase I)"
duration: "9 Months"
project_title: "Automated Energy Retrofit Quality Verification & Contractor Decarbonization OS"
```

1. Project Summary & Societal Impact

Commercial and residential buildings generate 39% of U.S. greenhouse gas emissions. While high-efficiency HVAC heat pumps, air barriers, and R-value insulation receive billions in federal tax credits (IRA Section 25C and 179D), an estimated 25%–40% of intended energy efficiency is lost in the field due to unverified subcontractor installations.

ACE Construction is developing the **ACE Decarbonization Verification Module**, an offline-first mobile inspection engine that guides independent trade contractors through mandatory ASHRAE/BPI air-sealing quality standards, automatically capturing geotagged photographic proof before walls are closed.

2. Specific Project Goals & Milestones

- **Goal 1:** Codify DOE Zero Energy Ready Home (ZERH) standards into digital, one-click mobile punch lists.
- **Goal 2:** Deploy the system across 25 independent regional contracting crews executing residential retrofits.

- **Goal 3:** Measure a verified $\geq 90\%$ first-pass inspection rate and a 22% reduction in envelope air leakage across 150 building units.

3. Reconciled 2 CFR Part 200 Grant Budget

Category	Cost Basis	Total (\$)
Direct Personnel	Principal Investigator (\$37,500) + Lead Mobile Eng (\$45,000) + QA Specialist (\$23,625)	\$106,125
Fringe Benefits	22.0% of direct personnel salaries	\$23,348
Travel	DOE grantee meeting & contractor jobsite audits (2 travelers)	\$3,800
Equipment & Sensors	4 Blower door adapters, 6 FLIR thermal imaging cameras, field tablets	\$9,200
Subcontractor Stipends	25 Participating trade crews × \$1,200 data logging stipend	\$30,000
Other Direct Costs	Cloud infrastructure and code validation licenses	\$9,345
Indirect Costs (10% MTDC)	Modified Total Direct Cost calculation (Statutory allowable cap)	\$18,182
TOTAL REQUESTED GRANT BUDGET	Reconciled exactly with DOE SBIR statutory limit	\$200,000

LOAN-PACKAGE.MD

Lender & SBA Loan Package: ACE Construction & Contracting LLC

```
document_id: "DOC-CON-002"
borrower_name: "ACE Construction & Contracting LLC"
brand_name: "ACE Construction"
facility_type: "SBA 7(a) Working Capital Loan ($350,000) + Progress Draw Revolver ($150,000)"
guaranty_program: "SBA Surety Bond Guarantee (SBG) Program ($9,000,000 Capacity)"
target_institutions: "Live Oak Bank / First Citizens Bank (SBA PLP Lenders)"
target_dscr: "2.90x Year 1 / 8.36x Year 2"
collateral_offered: "First UCC-1 lien on all business assets, equipment, receivables & AIA contract draws"
```

1. Credit Overview for Underwriters

ACE Construction & Contracting LLC is applying for an integrated credit facility to expand its commercial contracting and energy decarbonization retrofit operations:

- **Primary Facility:** \$350,000 SBA 7(a) 10-year term loan at Prime + 2.50% (monthly debt service: \$4,366).
- **Secondary Facility:** \$150,000 Contractor Progress Draw Revolving Line at Prime + 3.00% (interest-only monthly).
- **Bonding Program:** Pre-approval for SBA Surety Bond Guarantee allocation covering single projects up to **\$9,000,000**.

2. Debt Service Coverage & Cash Flow Capacity

$$\text{DSCR} = \frac{\text{Net Operating Income (EBITDA)}}{\text{Annual Principal + Interest}} = \frac{\$182,600}{\$62,900} = \mathbf{2.90\times} \quad (\text{Benchmark} \geq 1.25\times)$$

- **Year 1 Cash Flow Cushion:** Net cash flow after complete debt service is **\$119,700**.
- **Year 2 Projections:** EBITDA rises to \$538,800 against \$64,400 debt service ($\mathbf{8.36\times}$ coverage).
- **Stress Test (25% Revenue Decline):** At \$1,119,000 gross revenue (a severe 25% drop), EBITDA remains \$89,000, still maintaining a **1.41x DSCR**, ensuring uninterrupted loan repayment.

3. Collateral & Balance Sheet Security

Asset Category	Cost Basis (\$)	Estimated Liquidation Value (\$)	Lender Position
Machinery, Tools & Vehicle Fleet	\$145,000	\$105,000	1st Position Lien (UCC-1)
Accounts Receivable & AIA Certified Draws	\$185,000	\$150,000	1st Position Lien (Lockbox Account)
Intellectual Property (ACE Field OS)	\$250,000	\$125,000	General Intangibles Lien
Personal Guarantee (Owners >20%)	Personal Balance Sheet	Real Estate Net Equity	Unconditional Personal Guarantee
TOTAL COLLATERAL BASE	\$580,000	\$380,000	Fully Secures \$350K SBA Facility

4. Repayment Sources Hierarchy

1. **Primary Repayment:** Operating cash flow generated from commercial tenant improvements and recurring monthly retainer client draws.
2. **Secondary Repayment:** Lockbox receivables factoring on AIA progress payments (\$150,000–\$350,000 per project).
3. **Tertiary Repayment:** Unconditional personal guarantees of equity owners and liquidation of commercial fleet and diagnostic equipment.

DOMAIN: 15_GRANTS

DOMAIN: 15_INVESTORS

INVESTOR-PACKAGE.MD

Investor Package: ACE Construction & Contracting LLC

```
document_id: "DOC-CON-004"
company_name: "ACE Construction & Contracting LLC"
brand_name: "ACE Construction / ACE Field OS"
investment_round: "Seed Growth Round / Senior Subordinated Debt"
target_raise: "$500,000"
instrument: "Preferred Equity / Revenue-Share Note (8% Coupon + 2% Royalty)"
pre_money_valuation: "$3,500,000"
equity_offered: "12.5%"
target_exit: "Acquisition by ConTech / Commercial Services Conglomerate (Year 4-5)"
```

1. Investment Highlights & Core Thesis

1. **Recession-Resilient Industry with Massive Tailwinds:** The Inflation Reduction Act has committed \$369 Billion to energy security and climate, creating historic demand for verified building retrofits and energy tax credits.
2. **Hybrid Revenue Architecture (High-Margin Tech + Solid Contracting Cash Flow):** ACE operates with high-volume general contracting cash flow (30% gross margins) while developing a high-margin proprietary ConTech SaaS platform (85%+ gross margins).
3. **Institutional Bonding Moat:** SBA Surety Bond Guarantee pre-qualification opens access to public sector municipal and school contracts up to **\$9,000,000**, insulating ACE from local retail price competition.

2. Unit Economics & Growth Projections

- **Contracting Unit Economics:** Average commercial tenant improvement project = \$280,000 gross contract value, \$84,000 gross profit (30.0% margin), 45-day cycle time.

- **Software Unit Economics:** \$79/month per contracting crew, \$948 LTV, customer acquisition cost (CAC) <\$180 via direct trade association partnerships.
 - **3-Year Trajectory:** Revenue expands from **\$1.49M (Year 1)** to **\$4.84M (Year 3)**, with EBITDA scaling to **\$987,200** (20.4% EBITDA margin).
-

3. Exit Strategy & Investor Returns

- **Target Acquirers:** Regional commercial general contractors (e.g., DPR, Brasfield & Gorrie), national building efficiency platforms (Johnson Controls, Trane Commercial), or ConTech private equity roll-ups.
 - **Valuation Multiple:** Based on typical 8x–12x EBITDA for tech-enabled specialty services, Year 4 estimated enterprise valuation is **\$10.5M–\$14.0M**, yielding a **3.5x–4.6x MOIC** for Seed investors.
