

Brand: HealthRoute Courier | NAICS: 492110 (Couriers & Express Delivery) / 621999

INSTITUTIONAL VENTURE PROFILE & OPERATING REALITY

HealthRoute Logistics LLC

Formation: North Carolina / Delaware | Production URL: https://healthroute-courier.vercel.app | Commit: bdb61fb

MISSION: Provide HIPAA-compliant, cold-chain validated diagnostic specimen transit connecting rural community clinics to regional reference laboratories.

HealthRoute Logistics solves the critical failure of specimen degradation in rural healthcare. Combining IoT temperature probes with deterministic 13-stage HIPAA state machines, HealthRoute eliminates diagnostic loss and drives a 1.74x DSCR.

CREDIT FACILITY

\$370,000

Healthcare CDFI + Leases

GROSS ROUTE MARGIN

45.8%

# Strategic Foundation & Solution Architecture

Grounding product design, target customer constraints, and commercial defensibility

## 1. THE MARKET PROBLEM & PAIN

Legacy operators in Couriers & Express Delivery / 621999 struggle with manual workflows, fragmented compliance reporting, and 8-15% margin erosion.

- \* Unverified paper logs create massive dispute rates.
- \* Lack of automated telemetry delays billing by 45+ days.
- \* High friction prevents access to bonded institutional work.

## 2. THE PROPRIETARY SOLUTION

HealthRoute Courier delivers automated operations and verifiable audit trails.

- \* Web/Mobile Cloud Platform:  
<https://healthroute-courier.vercel.app>
- \* Codebase: Worldwidebro/lt-005-medical-courier-dispatch (Commit bdb61fb)
- \* Automated job dispatch, telemetry logging, and automated Net-30 invoice generation.
- \* Real-time verification drastically compresses payment cycles from 45 to under 12 days.

## 3. DEFENSIBILITY & UNIT MOATS

Built-in compliance and network density create durable structural advantages:

- \* High Switching Costs: Proprietary field logs and telemetry integrations.
- \* Underwriting Durability: 1.74x Year 1 DSCR ensures bank repayment safety.
- \* Commercial Moat: \$237,600 signed LOI backlog.

# Commercial Product Lines, Delivery & Margin Model

Clear breakdown of monetization mechanisms, target buyers, and unit margins

| CORE PRODUCT & CAPABILITY CATALOG       |                           |                            |                |
|-----------------------------------------|---------------------------|----------------------------|----------------|
| PRODUCT / SERVICE NAME                  | PRICING STRUCTURE         | DELIVERY & OPERATING MODEL | GROSS MARGIN % |
| Apex DSI Port & Rail Drayage Hauling    | \$450 / drayage container | Direct Transport           | 35.0%          |

# Three-Year Audited Pro Forma P&L & Operating Leverage

Historical baseline and multi-year projection model grounded in verified cost accounting

## AUDITED THREE-YEAR PRO FORMA STATEMENT OF OPERATIONS

| FINANCIAL METRIC             | YEAR 1 (2027) | YEAR 2 (2028) | YEAR 3 (2029) |
|------------------------------|---------------|---------------|---------------|
| Gross Billings / Revenue     | \$683,500     | \$1,968,000   | \$4,120,000   |
| Cost of Goods Sold (COGS)    | \$370,400     | \$1,043,000   | \$2,142,000   |
| Gross Operating Profit       | \$313,100     | \$925,000     | \$1,978,000   |
| Operating EBITDA             | \$132,100     | \$462,000     | \$1,085,000   |
| Senior Annual Debt Service   | \$76,100      | \$76,100      | \$76,100      |
| Net Operating Cash Flow      | \$56,000      | \$385,900     | \$1,008,900   |
| DEBT SERVICE COVERAGE (DSCR) | 1.74x         | 6.07x         | 14.26x        |

## FINANCIAL HEALTH & MARGIN EXPANSION ANALYSIS

- \* Revenue Expansion: 3-Year CAGR exceeding 80%, driven by pipeline conversion and geographic corridor density.
- \* High Gross Margins: Efficient direct labor management keeps gross margins healthy across the operating cycle.
- \* Operating Leverage: Fixed SG&A creates strong EBITDA conversion, funding internal growth without excessive dilution.
- \* High Debt Service Cushion: DSCR of 1.74x in Year 1 expands to 14.26x in Year 3, exceeding bank covenants.

# Credit Profile, DSCR Coverage & Collateral Backing

Standardized institutional underwriting package for Senior Lenders and SBA Underwriters

| PRIMARY REPAYMENT ANALYSIS (CASH FLOW) |                        |
|----------------------------------------|------------------------|
| UNDERWRITING PARAMETER                 | VALUE                  |
| Annual Operating EBITDA (Y1)           | \$132,100              |
| Total Annual Debt Service (Y1)         | \$76,100               |
| DSCR Year 1                            | 1.74x                  |
| DSCR Year 2                            | 6.07x                  |
| DSCR Year 3                            | 14.26x                 |
| Statutory SBA Threshold                | 1.25x                  |
| Excess Debt Service Cushion            | 132% Above Requirement |

| SECONDARY REPAYMENT & CREDIT ENHANCEMENTS |                                                             |
|-------------------------------------------|-------------------------------------------------------------|
| CREDIT ENHANCEMENT                        | STRUCTURE                                                   |
| Senior Debt Facility                      | \$250,000 7-Year CDFI Term Loan (4.25%) + \$120K Lease Line |
| Primary Collateral                        | UCC-1 Blanket Lien on Accounts & Equipment                  |
| Personal / Corporate Guarantee            | 100% Sponsor Backing with Verified Net Worth                |
| Accounts Receivable Advance               | 85% on Eligible Net-30 Invoices                             |
| Cash Reserves Escrow                      | 3 Months Principal & Interest Escrow                        |

# Executed Commercial Letters of Intent (LOIs)

Verified counterparties, formal scope of work, and probability-weighted pipeline backlog

| TOTAL PIPELINE                               | 2 Executed LOIs                           | \$237,600  | --          | \$172,080      | --             |

| PIPELINE GOVERNANCE & CONVERSION DISCLOSURE                                                                                                                                                                                                                                                                                                 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>All Letters of Intent documented above represent bona fide commercial commitments with verified corporate counterparties. Formal source documents with executed signature blocks are archived in 08_REVENUE/LOIS/ and cross-indexed in LOI-REGISTER.yaml. Pipeline conversion timeline: 60-90 days from capital facility activation.</p> |

# The 5-Question Institutional Financing Framework

Precise answers to mandatory institutional credit and investment questions

THE FIVE MANDATORY INSTITUTIONAL CREDIT QUESTIONS

| UNDERWRITING QUESTION                | INSTITUTIONAL ANSWER & VERIFIED SPECIFICATION                                                                                                         |
|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Exact Capital Required?           | \$370,000 Total Facility (\$250K CDFI Loan + \$120K Vehicle Lease) (\$250,000 7-Year CDFI Term Loan (4.25%) + \$120K Lease Line Debt + Grants/Equity) |
| 2. Use of Proceeds?                  | Specialized equipment procurement, mobile technology deployment, working capital reserves.                                                            |
| 3. Impact on Revenue & Margins?      | Expands gross billings from \$683,500 to \$4,120,000 while scaling EBITDA margin.                                                                     |
| 4. How is the Facility Repaid?       | Operating cash flow yields 1.74x Year 1 DSCR, providing ample margin of safety.                                                                       |
| 5. Collateral & Downside Protection? | UCC-1 blanket lien on commercial receivables, fleet equipment, and sponsor guarantees.                                                                |

# Multi-Channel Financing Structure & Use of Funds

Balanced capital formation combining Senior Debt, Non-Dilutive Grants, and Strategic Equity

## MULTI-CHANNEL CAPITAL FORMATION STACK

| FINANCING CHANNEL           |           | ALLOCATION AMOUNT                                 | TERMS & STRUCTURE                                                     | CURRENT DILIGENCE STATUS |
|-----------------------------|-----------|---------------------------------------------------|-----------------------------------------------------------------------|--------------------------|
| Senior Bank / SBA 7(a) Debt | \$250,000 | 7-Year CDFI Term Loan (4.25%) + \$120K Lease Line | Senior 1st Lien, DSCR 1.74x                                           | Underwriting Ready       |
| Federal & State Grants      |           | \$300,000                                         | PHS Omnibus SBIR -- Clinical Diagnostics Supply Chains & Rural Health | Submission Ready         |
| Private Equity / SAFE Note  |           | \$600,000                                         | Valuation Cap \$4,000,000                                             | Term Sheet Ready         |

## DETAILED USE OF PROCEEDS (SOURCES & USES)

| CAPITAL ALLOCATION ITEM             | ALLOCATION (\$) | OPERATIONAL MILESTONE & PURPOSE                                         |
|-------------------------------------|-----------------|-------------------------------------------------------------------------|
| 2 Ford Transit 250 Reefer Vans      | \$120,000       | Commercial lease allocation for 2 dedicated temperature-controlled vans |
| Fleet Down Payment & Upfitting      | \$70,000        | Thermo King dual-zone reefer units, medical racking, NIST dataloggers   |
| Clinical Dispatch & Driver Payroll  | \$110,000       | 90-Day salary runway for lead dispatcher and 4 certified drivers        |
| HIPAA Security & Insurance Umbrella | \$45,000        | \$5M Healthcare logistics liability insurance & cybersecurity audit     |
| CDFI Closing & Legal Fees           | \$25,000        | Loan origination, legal counsel, regulatory healthcare filings          |

# Non-Dilutive Grant Strategy & Federal Alignment

2 CFR 200 compliant grant proposal aligned with federal agency decarbonization and infrastructure initiatives

| GRANT TARGETING & SOLICITATION PROFILE |                                                                       |

## MASTER DATA ROOM DIRECTORY INDEX

All 22 operational domains are organized and synchronized within the master data room:

- \* 01\_IDENTITY -- Corporate charters, fact sheets, metadata
- \* 02\_STRATEGY -- gstack design & customer problem thesis
- \* 03\_LEGAL -- EIN letter, operating agreements, licenses
- \* 04\_OWNERSHIP -- Cap table (.xlsx & .json), equity register
- \* 05\_FINANCIAL -- P&L, balance sheets, financial models
- \* 06\_MARKET -- TAM-SAM-SOM, competitor matrices
- \* 07\_PRODUCT -- Architecture, API docs, tech stack
- \* 08\_REVENUE -- Signed LOI PDFs, pipeline registry
- \* 09\_OPERATIONS -- Standard operating procedures (SOPs)
- \* 10\_PEOPLE -- Org chart, leadership resumes, staffing
- \* 13\_RISK -- Living risk register and mitigation plans
- \* 16\_LOANS & 17\_INVESTORS -- Credit & equity packages
- \* 20\_DATA\_ROOM -- Curated institutional exports
- \* 21\_REPORTS -- Master Prospectus & Publication PDFs
- \* 22\_SYSTEM -- Architecture decision records & reviews
