Strategic Foundation & Solution Architecture

Grounding product design, target customer constraints, and commercial defensibility

1. THE MARKET PROBLEM & PAIN

Legacy operators in Temporary Help Services / 541512 struggle with manual workflows, fragmented compliance reporting, and 8-15% margin erosion.

- * Unverified paper logs create massive dispute rates.
- * Lack of automated telemetry delays billing by 45+ days.
- * High friction prevents access to bonded institutional work.

2. THE PROPRIETARY SOLUTION

CareerOps delivers automated operations and verifiable audit trails.

- * Web/Mobile Cloud Platform:
<https://ops-staff-001-staffing-worldwidebros-projects.vercel.app>
- * Codebase: Worldwidebro/ops-staff-001-staffing (Commit c4d32f1)
- * Automated job dispatch, telemetry logging, and automated Net-30 invoice generation.
- * Real-time verification drastically compresses payment cycles from 45 to under 12 days.

3. DEFENSIBILITY & UNIT MOATS

Built-in compliance and network density create durable structural advantages:

- * High Switching Costs: Proprietary field logs and telemetry integrations.
- * Underwriting Durability: 2.95x Year 1 DSCR ensures bank repayment safety.
- * Commercial Moat: \$600,000 signed LOI backlog.
