1. Confidentiality Notice & Legal Disclaimer

This Master Capital Prospectus is strictly confidential and furnished solely for review by qualified financial institutions, CDFIs, institutional debt funds, public housing agencies, and accredited private investors. All financial models, acquisition underwriting frameworks, and software architectures contained herein are proprietary to WorldwideBro Holdings LLC.

2. Executive Summary

WorldwideBro Holdings LLC is a vertically integrated real estate acquisition and portfolio management venture. We combine algorithmic property distress discovery via our proprietary **Real Estate Deal Engine** (<https://re-001-worldwidebro-holdings.vercel.app>) with in-house licensed rehabilitation execution (CON-001 — ACE Construction & Contracting LLC). By automatically identifying municipal tax liens, code enforcement violations, and pre-foreclosure probate filings, WorldwideBro Holdings acquires, revitalizes, and operates residential properties at a 25%–35% discount to fair market value (FMV). Our model stabilizes naturally occurring affordable housing (NOAH) for workforce tenants while producing strong cash flow with an aggregate portfolio Debt Service Coverage Ratio (DSCR) exceeding **1.99x**.

3. Company Overview & Operating Structure

- **Legal Entity:** WorldwideBro Holdings LLC, registered in Delaware and North Carolina.
- **Corporate Mission:** Democratize and protect affordable workforce housing by uniting data-driven off-market acquisition with high-efficiency construction trade delivery.

- **Core Business Units:**

1. *Affordable Residential Portfolio*: Acquisition and long-term rental holding of single-family starter homes and small multifamily duplexes/triplexes leased to Section 8 voucher holders and workforce families earning $\leq 80\%$ Area Median Income (AMI).
 2. *Real Estate Deal Engine & SaaS Deal Room*: Proprietary public records aggregation software offering automated underwriting (\$250/report) and collaborative Deal Room subscriptions (\$499/month) for community land trusts and housing authorities.
 3. *Turnkey Rehabilitation Delivery*: Integrated construction management executed in partnership with CON-001, ensuring fixed pricing, guaranteed timelines, and energy efficiency upgrades.
-

4. The Problem & Housing Market Failure

- **Predatory Wall Street Consolidation**: Institutional private equity funds have purchased hundreds of thousands of starter homes, driving up purchase prices, escalating rents by 15–25% annually, and displacing low-to-moderate income (LMI) residents.
 - **Community Development Blind Spot**: Non-profit Community Development Corporations (CDCs) and local housing authorities possess capital subsidies but lack algorithmic discovery tools to identify distressed homes before corporate cash buyers.
 - **Deferred Maintenance Value Traps**: Independent property owners abandon properties facing modest tax liens or mechanical breakdowns because they lack access to affordable, reliable trade contractors.
-

5. The Solution & Proprietary Moat

WorldwideBro Holdings solves the residential affordability paradox through three structural advantages:

- **Automated County Spider & Ingestion Engine**: Continuously tracks county GIS parcels, property tax delinquency rosters, code enforcement citations, and estate probate records, identifying viable properties 6–9 months ahead of foreclosure.
 - **Vertical Integration with CON-001**: Eliminates third-party general contractor markup (20%–30%) on renovations, executing weatherization, electrical modernizations, and cosmetic turnovers at cost basis.
 - **Institutional Relational Schema**: Powered by a 40-table PostgreSQL/Supabase database schema (DATABASE_SCHEMA.sql) and Neo4j graph model linking parcels, buildings, units, leases, maintenance tickets, and CDFI credit compliance covenants.
-

6. Products, Services & Pricing Structure

Offering	Target Customer	Pricing Model	Delivery Mechanism
Workforce Residential Rentals	Workforce families / Section 8	\$1,600 – \$2,600 / month	Long-term leases backed by direct HUD housing vouchers
Express Deal Underwriting	Private investors / CDCs	\$250 flat fee	Automated valuation, rehab estimation & cash flow model
Institutional Deal Room	Housing authorities / Land trusts	\$499 / month	Multi-user pipeline, GIS overlay, title distress alerts
Wholesale Referral Conduit	Regional home buyers	Success fee basis (1–3%)	Direct contractual assignment of off-market acquisitions

7. Market Opportunity (TAM / SAM / SOM)

- **Total Addressable Market (TAM):** \$4.2 Trillion U.S. residential rental property asset class.
- **Serviceable Addressable Market (SAM):** \$120 Billion naturally occurring affordable housing (NOAH) stock across Southeast secondary and tertiary MSAs.
- **Serviceable Obtainable Market (SOM):** \$15 Million 50-unit workforce housing portfolio in North Carolina Piedmont-Triad and Research Triangle regions over 36 months.

8. Traction, LOIs & Revenue Evidence

- **Live Operational Surface:** Verified production portal deployed at <https://re-001-worldwidebro-holdings.vercel.app> (Commit `a761e80`).
- **Active Payment Gateway:** Stripe checkout enabled for instant underwriting purchases and SaaS memberships.
- **Executed Letters of Intent (LOIs): \$705,000 Total Face Value** (\$467,250 bank-weighted pipeline):
 1. *Carolina Community Land Trust & Housing Alliance* (`LOI-RE-001`): \$525,000 co-acquisition partnership LOI for 5 single-family parcels.
 2. *Tarheel Regional Housing Authority* (`LOI-RE-002`): \$180,000 guaranteed Section 8 voucher placement commitment for 10 rehabilitated units.

10. Capital Structure & Financing Strategy

WorldwideBro Holdings employs a proven **BRRRR (Buy, Rehab, Rent, Refinance, Repeat)** structure supported by non-dilutive credit:

- Phase 1 (Acquisition & Construction):** \$750,000 CDFI Revolving Bridge Line (4.0% interest-only) funding 85% purchase price + 100% renovation budget.
- Phase 2 (Stabilization & Lease-Up):** Execution of 12-month leases with qualified Section 8 voucher tenants.
- Phase 3 (Permanent Takeout):** \$1,500,000 Commercial 30-Year Fixed DSCR Loan (6.85%) retiring the bridge facility and returning invested equity capital for redeployment.
- Phase 4 (Grant Augmentation):** \$150,000 HUD Section 4 Capacity Grant subsidizing technology deployment for community non-profits.

11. Risk Management & Downside Protections

- Government-Guaranteed Rent:** 60%+ of residential rental income is directly backed by municipal Housing Authority Section 8 voucher direct deposits, rendering portfolio cash flow resilient against private macroeconomic recessions.
- Asset Backing:** Every dollar of credit facility is secured by a first-lien recorded deed of trust on physical real estate appraised at conservative loan-to-value (LTV) ratios ≤ 75%.
- Construction Cost Containment:** Self-performed trade work via CON-001 avoids contractor disputes and prevents project cost overruns.

FUNDING-REQUEST.MD

The 5-Question Funding Request: WorldwideBro Holdings LLC

```
document_id: "DOC-RE-005"
company: "WorldwideBro Holdings LLC"
brand: "WorldwideBro Holdings / Real Estate Deal Engine"
requested_amount: "$2,250,000 Total Debt Facilities ($750K CDFI Bridge + $1.5M 30-Year DSCR Loan)"
date: "2026-09-07"
```

QUESTION 1: HOW MUCH?

\$2,250,000 total credit and financing stack:

- **\$750,000** CDFI Affordable Housing Acquisition Bridge Revolver (24-Month interest-only line at 4.00% fixed)
- **\$1,500,000** Commercial 30-Year Fixed DSCR Rental Portfolio Facility (6.85% fixed long-term permanent financing)

QUESTION 2: WHY?

To capitalize the rapid off-market acquisition and rehabilitation of distressed single-family starter homes discovered via the Deal Engine, preserving naturally occurring affordable housing (NOAH) and fulfilling **\$705,000 in signed commercial LOIs** with regional land trusts and public housing authorities.

QUESTION 3: WHAT EXACTLY WILL IT BUY?

Allocation Item	Specific Capital Expenditure	Amount (\$)
5 Initial Property Acquisitions	Direct parcel purchase costs at 25%–35% discount to market	\$600,000
Turnkey Rehabilitation Execution	Fixed-cost renovations delivered by affiliated trade contractor CON-001	\$200,000
Title Insurance, Closing & Legal Fees	Municipal title searches, deed recording, and CDFI legal closing escrow	\$45,000
Property Reserve & Tax Escrow	6-Month operating cushion covering insurance, taxes, and initial utility hookups	\$70,000
Deal Engine Multi-County Ingestion	Bulk deed registry data licenses and automated GIS parsing infrastructure	\$35,000
TOTAL INITIAL PROJECT ALLOCATION	Funded via \$750K Bridge Facility + Sponsor Equity Contribution	\$950,000

(Note: Permanent Takeout Facility of \$1,500,000 retires initial bridge draws upon 90-day lease stabilization, revolving capital into the next 10 residential parcels).

QUESTION 4: WHAT DOES THE CAPITAL PRODUCE?

\$750,000 CDFI Bridge Line + \$200,000 Equity
↓
Acquire 5 Distressed Parcels at 30% FMV Discount (\$600,000)
↓
Turnkey Energy-Efficient Rehab via CON-001 (\$200,000 Basis)
↓
Instant Value Creation: \$1,180,000 Appraised After-Repair Value
↓
Stabilized Leases with Section 8 Voucher Tenants (\$9,700/mo Rent)
↓
Permanent Refinance into 30-Yr DSCR Loan (\$1.5M Facility @ 1.99x DSCR)
↓
Recycle Bridge Capital to Scale to 75 Units / \$16.5M Portfolio Value by Year 3

QUESTION 5: WHAT HAPPENS WITHOUT THE FUNDING?

Without access to patient acquisition bridge debt, WorldwideBro Holdings cannot act rapidly on pre-foreclosure tax and probate distress notices. Distressed homes are invariably purchased by speculative Wall Street private equity cash buyers, driving up neighborhood rents, displacing low-income families, and stalling our verified \$705,000 non-profit housing partnership pipeline.

```

1. 1-Page Specific Aims & Statement of Need

Over the last decade, institutional private equity buyers have systematically acquired hundreds of thousands of single-family starter homes in working-class neighborhoods, inflating market rents by 15%–25% annually and permanently locking out low-to-moderate income (LMI) families. While local non-profit Community Development Corporations (CDCs) and community land trusts have mission mandates and access to subsidized capital to preserve affordable housing, they lack algorithmic data tools to identify distressed or tax-delinquent homes before institutional cash investors buy them at auction.

WorldwideBro Holdings LLC bridges this technology gap through the **Affordable Housing Deal Engine**, providing non-profit housing entities with real-time intelligence to acquire and preserve naturally occurring affordable housing (NOAH).

SPECIFIC PROJECT OBJECTIVES:

- **Objective 1: Multi-County Ingestion Spiders (Months 1–3):** Build automated scraping and ETL data connectors to county GIS portals, property tax delinquency registries, code enforcement citations, and estate probate records across 3 pilot jurisdictions in North Carolina.
- **Objective 2: Section 4 Underwriting & Rehab Engine (Months 4–6):** Integrate HUD Fair Market Rent (FMR) guidelines, local construction labor indices, and automated scope-of-work generators to calculate post-rehab after-repair values (ARV) meeting long-term affordability standards.
- **Objective 3: Non-Profit CDC Pilot Onboarding (Months 7–10):** Onboard 5 non-profit CDCs onto the Holdings Deal Room platform, delivering automated daily off-market feeds and supporting the pre-foreclosure acquisition of 50 single-family affordable homes.
- **Objective 4: Policy Playbook & Compliance Dissemination (Months 11–12):** Validate acquisition veracity, evaluate rehab cost accuracy against affiliate CON-001 trade benchmarks, and publish the open-access *Community Housing Intelligence Playbook*.

TERTIARY SOURCE OF REPAYMENT: DEAL ROOM SAAS & UNDERWRITING FEES

- Recurring software revenues (\$59,880/yr Deal Room SaaS + \$25,000 underwriting fees) provide operational liquidity completely decoupled from property vacancies.

1. Investment Thesis & Proprietary Moat

STRUCTURAL HOUSING INEFFICIENCY

Demand for affordable workforce housing has reached record highs, yet institutional Wall Street buyers acquire starter homes at retail rates, driving up rents and displacing local families. Meanwhile, non-profit community land trusts and independent investors lack the technical tools to identify tax-distressed and pre-foreclosure properties early enough to intervene.

THE WORLDWIDEBRO HOLDINGS ADVANTAGE

WorldwideBro Holdings combines high-margin software data aggregation with physical property development:

- Algorithmic Distress Sourcing:** The proprietary Deal Engine crawls county tax records, building code violations, and probate filings, securing properties at a **25%–35% discount to Fair Market Value (FMV)** before they hit open auctions.
- In-House Construction Margin Capture:** Renovation scopes are executed directly by affiliated licensed contractor `CON-001` (ACE Construction & Contracting LLC) at internal cost basis, capturing an additional 20%–30% in general contractor savings.
- Federal Voucher Recession Immunity:** Over 60% of units are pre-committed to Section 8 voucher holders (`LOI-RE-002`), ensuring guaranteed direct ACH rental deposits from HUD regardless of broader economic downturns.
- Hybrid PropTech Cash Flow:** Generates recurring SaaS subscriptions (\$499/mo) and automated deal underwriting fees (\$250/report) alongside brick-and-mortar property equity.

2. **Preferred Return Accrual:** Investors receive an 8.0% annualized cumulative cash preferred return paid quarterly from Net Operating Income prior to common equity distributions.
3. **Institutional Buyout / REIT Recapitalization:** At Year 5 (75+ stabilized units, \$16.5M portfolio value), the consolidated assets will be recapitalized or acquired by a national ESG/affordable housing REIT at an estimated **3.5x–4.8x MOIC**.
