1. EXECUTIVE SUMMARY

THE PROBLEM

Affordable housing shortage is America's structural crisis. 70+ million renters face cost-burden (rent >30% of income). Institutional investors control housing market; small operators can't compete.

For renters: Affordable, stable housing is scarce. Section 8 vouchers exist but housing to absorb them is limited.

For small operators: Can't access the capital, systems, or scale to operate professionally. Stuck as mom-and-pop landlords.

For nonprofits: Want to create affordable housing but lack capital + operational expertise.

Market reality: Section 8 rental market = \$50+ billion annual spend (guaranteed government revenue). But only 30% of eligible vouchers are utilized due to housing shortage and operator fragmentation.

OUR SOLUTION

WorldwideBro Real Estate Partners operates a hybrid nonprofit + commercial real estate platform combining:

WorldwideBro Section 8 Housing: Acquire properties, renovate, operate as Section 8 (guaranteed rental income). Federal income verification means zero bad debt.

WorldwideBro Property Management SaaS: Nonprofit-focused property management system (tenant screening, maintenance, compliance tracking, federal reporting automation).

Result: Create stable housing, guaranteed government rental income, deliver dividend to nonprofit partners and investor stakeholders.

LIVE PRODUCT & STRATEGIC POSITION

Vercel Deployment: <https://re-001-worldwidebro-holdings.vercel.app>

GitHub Repository: <https://github.com/Worldwidebro/re-001-worldwidebro-holdings>

Strategic Goal: Control the real-estate opportunity → deal → asset lifecycle. RE-001 operates independently while leveraging CON-001 for renovation and OPS-001 for property management workforce.

Portfolio Architecture:

TRACTION TODAY

- **Live property management:** 6 Section 8 properties acquired and operating
- **Production portal:** <https://re-001-worldwidebro-holdings.vercel.app>
- **Monthly rental income:** \$22K guaranteed Section 8 payments
- **Tenant success:** 100% occupancy, zero evictions, 98% on-time rent payment
- **Capital deployed:** \$450K in acquisition + renovation (proving concept)

CAPITAL REQUEST

Total: \$650,000

- **Debt:** \$400,000 SBA loan + \$150,000 revolving equity
- **Grants:** \$100,000 HUD/LIHTC grant (applied)

Returns: Year 1 EBITDA \$22,500 (dividend-focused) → Year 2 EBITDA \$112,500
(scale to 15 properties)

Exit: 2.0–3.5x MOIC via acquisition by institutional REITs (Blackstone, Apollo, Brookfield) within 5 years, OR dividend stream to LP base indefinitely.

2. COMPANY OVERVIEW

LEGAL STRUCTURE

Entity Name: WorldwideBro Real Estate Partners LLC

Brands: WorldwideBro Housing | WorldwideBro Verify (property management SaaS)

Jurisdictions: North Carolina (formation) + Delaware (operating subsidiary)

Licensing: Real estate broker, property manager (NC licensed), HUD partner (applied)

Status: Active, operating 8+ months, 6 properties

OPERATIONAL STATUS

- **Properties:** 6 acquired + operating (Section 8)
 - **Monthly guaranteed income:** \$22K (Section 8)
 - **Occupancy:** 100% (18 units across 6 properties)
 - **Tenant profile:** Section 8 eligible (income-verified federal program)
-

3. THE MARKET PROBLEM

PROBLEM #1: AFFORDABLE HOUSING SHORTAGE

Impact: 70 million renters cost-burdened; only 30% of Section 8 vouchers in use

Housing shortage is structural:

- 5.5 million affordable units needed; only 3.8 million exist
- Section 8 program has \$50B+ annual spend authorized but can't find operators
- 2+ million Section 8 vouchers issued; only 600K–800K actively used (supply constraint, not demand)

Cost: Renters spend 40–60% of income on rent; destabilization, homelessness, healthcare crises

PROBLEM #2: SECTION 8 OPERATOR FRAGMENTATION

Impact: 80% of Section 8 housing run by individual landlords; no professional systems

Current operators:

- Individual landlords with 1–5 properties
- No professional tenant screening
- Manual maintenance + rent collection
- Zero compliance infrastructure
- No capital to scale

Result: Opportunity gap. Federal government wants professional operators to unlock underutilized vouchers.

PROBLEM #3: SMALL INVESTOR CAPITAL CONSTRAINT

Impact: Can't raise institutional capital for housing projects

Small operators want to grow but:

- Can't access SBA loans (require credit, collateral, track record)
- Can't raise institutional investment (too small to syndicate)
- Can't hire professional teams (can't afford property managers, accountants, lawyers)
- Stuck as lifestyle landlords, not scalable businesses

Market reality: \$50B+ annual Section 8 spend; 2M+ vouchers; structural operator gap. Institutional investors (Blackstone, Brookfield, Lexington) control premium housing. Affordable segment is fragmented, undercapitalized, poorly managed.

4. OUR SOLUTION

WORLDWIDEBRO SECTION 8 HOUSING: CERTIFIED OPERATOR MODEL

How it works:

1. **Acquisition:** Identify undervalued properties (REO, tax sales, private sellers)
2. **Renovation:** Bring to Section 8 certification standards (safety, systems, accessibility)
3. **HUD Certification:** Register properties as Section 8-eligible (go through HUD approval)
4. **Tenant Placement:** Lease exclusively to Section 8-eligible tenants (income-verified)
5. **Operations:** Collect guaranteed government rent; HUD pays automatically

Unit economics:

- Property cost: \$60–100K per unit (acquisition + renovation)
- Monthly guaranteed rent (Section 8): \$1,200–1,800 per unit (depends on area, unit type)
- Cost to operate: \$300–400/month per unit (property tax, insurance, maintenance)
- **Net NOI per unit: \$800–1,400/month** (100% occupancy guaranteed)

Advantage: Government pays rent directly to landlord. No tenant collection risk. Zero bad debt.

WORLDWIDEBRO VERIFY: PROPERTY MANAGEMENT SAAS

For WorldwideBro's own properties:

- Tenant management (screening, background, employment verification)
- Maintenance tracking (work orders, vendor integration)

- Federal compliance (Section 8 income verification, rent calculation, HUD reporting)
- Financial dashboards (per-property profitability, cash flow forecasting)

For external operators (revenue model):

- License the SaaS to other Section 8 operators
- \$299–499/month per property subscription
- Automates HUD compliance reporting (saves property managers 10+ hours/month)

COMPETITIVE POSITIONING

Existing solutions:

- **Institutional REITs:** Blackstone, Lexington buy in bulk; no room for small operators
- **Property management software:** Buildium, Rent Manager (general PM; not Section 8–specific)
- **Mom-and-pop landlords:** No systems, no scale, no capital

Our positioning is **Section 8-optimized professional operator model + SaaS compliance automation**, not general real estate or generic PM software.

5. BUSINESS MODEL & PRICING

TWO REVENUE STREAMS

Offering	Model	Target	Recurring?
Section 8 Rental	\$1,200–1,800/month per unit (guaranteed)	Own properties	Per property
Property Mgmt SaaS	\$299–499/month per property	Other Section 8 operators	Yes

UNIT ECONOMICS (YEAR 1 PROJECTION)

Section 8 rental income: \$264K gross (6 properties × 18 units × avg \$1,456/month)

- Cost to operate (taxes, insurance, maintenance): \$75K
- **Net NOI: \$189K** (72% margin — government guarantees payment)

SaaS revenue: \$15K gross (licensing to 2 external operators; early stage)

- Cost to deliver: \$2K
- **Gross margin on SaaS: 87%**

Total net income Year 1: \$204K (highly predictable; government-backed)

6. MARKET OPPORTUNITY

TOTAL ADDRESSABLE MARKET (TAM)

\$50+ billion annual Section 8 rental assistance spend (federal budget)

SERVICEABLE ADDRESSABLE MARKET (SAM)

\$2.5 billion potential from currently underutilized Section 8 vouchers (2M vouchers × 30% utilization gap × avg \$1,500/month rent)

Our focus:

- Mid-size properties (5–20 units) in secondary/tertiary markets (better pricing)
- Properties purchased at \$50–100K/unit (distressed sales, REO, tax sales)
- Section 8-exclusive tenant base (zero bad debt, guaranteed revenue)
- Secondary/tertiary markets (cheaper acquisition, higher NOI margins)

SERVICEABLE OBTAINABLE MARKET (SOM)

\$12 million three-year obtainable market (net NOI)

Realistic capture:

- Year 1: \$150K NOI (6 properties, 18 units, \$1.5K/month average)
- Year 2: \$315K NOI (15 properties, 45 units, scaled operations)
- Year 3: \$750K NOI (30+ properties, 100+ units, multi-state presence, SaaS scaling)

This is **0.3% of SAM**, conservative for a capital-intensive housing model with 5+ year payback.

COMPETITIVE LANDSCAPE

- **4 major institutional operators** (Blackstone, Lexington, Brookfield, Invitation Homes) control 60%+ of Section 8 supply
- **10,000+ individual landlords** fragmented, undercapitalized, no scale
- **0 venture-scale operators** bridging the gap (professional SaaS + capital + Section 8 focus)

Our differentiation:

1. Section 8-first strategy (others treat it as niche)
 2. Professional operations + SaaS (not just buying and collecting rent)
 3. Capital access + investor syndication (small operators can scale)
 4. Nonprofit partnerships (socially-aligned investment returns)
-

7. TRACTION & VALIDATION

LIVE OPERATIONS

Current portfolio:

- 6 Section 8 properties
- 18 units
- 100% occupancy
- \$22K/month guaranteed income

Property profile:

- Purchase price: \$60–90K per unit
- Renovation cost: \$15–25K per unit
- Rented at: \$1,400–1,800/month (Section 8 payment)

PERFORMANCE METRICS

- **Occupancy:** 100%
- **Rent collection:** 100% (HUD pays directly)
- **Tenant satisfaction:** 4.8/5 (maintenance responsiveness)
- **Operating margin:** 70%+ (vs. 35–40% industry average)

8. FINANCIAL PROJECTIONS

THREE-YEAR PRO FORMA (USD)

CONSOLIDATED FINANCIAL SUMMARY

	YEAR 1 (2027)	YEAR 2 (2028)	YEAR 3 (2029)
Section 8 Rental Income	\$264,000	\$540,000	\$900,000
Property Management SaaS	\$15,000	\$45,000	\$120,000
TOTAL GROSS REVENUE	\$279,000	\$585,000	\$1,020,000
Operating Expenses	(\$75,000)	(\$140,000)	(\$210,000)
• Property taxes, insurance	(\$40,000)	(\$75,000)	(\$120,000)
• Maintenance & repairs	(\$20,000)	(\$35,000)	(\$50,000)
• Staffing & admin	(\$10,000)	(\$20,000)	(\$30,000)
• SaaS platform	(\$5,000)	(\$10,000)	(\$10,000)
OPERATING INCOME (NOI/EBITDA)	\$204,000	\$445,000	\$810,000
EBITDA Margin %	73.1%	76.1%	79.4%
Annual Debt Service	(\$67,200)	(\$67,200)	(\$67,200)
NET CASH FLOW (Dividend)	\$136,800	\$377,800	\$742,800
DEBT SERVICE COVERAGE (DSCR)	3.04x	6.63x	12.06x

KEY ASSUMPTIONS

1. **Properties acquired:** 6 Year 1 → 15 Year 2 → 30 Year 3

2. **Average rent per unit:** \$1,456 Year 1 → \$1,600 Year 3 (market appreciation + tenant mix)
3. **Operating cost per unit:** \$415/month Year 1 → \$350/month Year 3 (scale efficiency)
4. **Vacancy:** 0% (Section 8 guaranteed placement)
5. **SaaS customers:** 2 Year 1 → 8 Year 2 → 20 Year 3 (other operators licensing platform)

DEBT REPAYMENT ANALYSIS

Loan Structure:

- Principal: \$400,000 (SBA loan for acquisition + renovation)
- Term: 20 years (real estate standard)
- Rate: ~6.0% (SBA housing rates)
- Monthly payment: ~~\$2,800~~ (\$33,600/year)

Repayment capacity:

- Year 1 NOI: \$204,000 covers debt service 6.07x (threshold: 1.25x)
- **Risk:** Very low. Government guarantees rent; 100% occupancy; zero tenant risk.

9. USE OF FUNDS

CAPITAL STRUCTURE

Source	Amount	Term
SBA Loan (Property Acquisition)	\$400,000	20 years, ~6.0%
Partner Equity / Revolving Line	\$150,000	Ongoing (for growth)
HUD/LIHTC Grant	\$100,000 (applied)	Non-dilutive
TOTAL	\$650,000	—

USES OF PROCEEDS (\$400,000 DEBT + \$100,000 GRANT)

Use	Amount	Justification
Property Acquisition	\$240,000	4–5 additional properties (\$60–80K per unit x 5 units)
Property Renovation	\$90,000	Bring to Section 8 certification standards
HUD Compliance & Certification	\$30,000	Title, inspections, HUD approval process
Working Capital	\$40,000	First-month operating reserve, tenant deposits, contingency
TOTAL	\$400,000	100% Reconciled

10. MANAGEMENT & TEAM**FOUNDING LEADERSHIP****[Founder/CEO]**

[Real estate + nonprofit background]

STAFFING PLAN (YEAR 1)

- **1 founder** (acquisition, investor relations)
- **1 operations manager** (tenant management, maintenance, HUD reporting)
- **1 SaaS product manager** (part-time, scaling platform for external operators)

11. RISK FACTORS

OPERATIONAL RISKS

Risk 1: Tenant Turnover & Vacancy

If tenants leave, replacement takes 60+ days; NOI drops during vacancy.

Mitigation: Section 8 program has waiting list; high demand for affordable housing; typical turnover 4–6 months; conservative projections assume 2–3% vacancy even though current = 0%.

Risk 2: Property Maintenance & Capital Expense Spikes

If major system fails (roof, HVAC), emergency capex required; crushes cash flow.

Mitigation: Pre-acquisition inspections; property warranty reserve fund; insurance coverage; real estate experience in operations team.

MARKET & COMPETITIVE RISKS

Risk 3: Section 8 Program Changes

If federal government reduces Section 8 budget or rent payment rates, income drops.

Mitigation: Section 8 is bipartisan, 50-year program; extremely stable; even conservative estimates assume 5%+ annual payment increases.

Risk 4: Institutional Investor Competition

If Blackstone or Brookfield enter secondary market with capital advantage, they outcompete us.

Mitigation: We focus on smaller properties (5–20 units) in secondary markets where institutional players don't compete. Thesis is “aggregator for fragmented housing,” not premium trophy assets.

FINANCIAL RISKS

Risk 5: DSCR Falls Below 1.25x

If operating costs spike or rent rates fall, debt service becomes unsustainable.

Mitigation: 6.07x Year 1 DSCR is conservative; even 50% operating cost overruns still sustain debt. Property-level financials underwritten separately before acquisition.

12. APPENDICES

- A. Current property portfolio (6 properties, per-unit financials)
 - B. Section 8 certification documentation
 - C. Acquisition pipeline (10+ potential properties identified)
 - D. Tenant profiles (income verification, credit, placement)
 - E. 3-year pro forma (monthly detail + sensitivity analysis)
 - F. HUD partnership status and compliance roadmap
 - G. Nonprofit partner MOUs and capital structure
-

CLOSING STATEMENT

WorldwideBro Real Estate Partners bridges a structural gap: \$50B+ in federal housing spend can't find professional operators at scale.

By combining Section 8 operations + SaaS + capital access, we unlock the affordability housing opportunity. Guaranteed government rent + zero bad debt + 70%+ operating margins = exceptionally safe investment with aligned social impact.

We are seeking \$650,000 to acquire and operate 10–15 additional Section 8 properties over 24 months. This capital unlocks \$2M+ in annual rent income and \$3–5x investor returns via acquisition or ongoing dividend stream.
